# 1. IDENTIFICATION OF THE SUBSTANCE / APPLICATION AND THE COMPANY

**Supplier:** Product Name: DOT 5 Brake Fluid

Maxima Racing Oils Article Number: 80-81916

**Applications:** Brake Fluid

## 2. HAZARDS IDENTIFICATION

#### **GHS Classification**

Carcinogenicity: Category 2

**GHS Pictogram** 

Signal Word Warning!

**Hazard Statements** H351 Suspected of causing cancer.

Precautionary Statements

**Prevention** P201 Obtain special instructions before use.

P202 Do not handle until all safety precautions have been read and

P280 Wear protective gloves.

**Response** P308 + P313 IF exposed or concerned: Get medical attention.

Storage P405 Store locked up.

**Disposal** P501 Dispose of contents and container in accordance with local and

national regulations.

Other Hazards None

## 3. COMPOSITION / INFORMATION ON INGREDIENTS

ComponentsContent %CAS NumberPolydimethylsiloxane90-10063148-62-9Tributylphosphate>0.1-<1</td>126-73-8

The specific identity and/or exact percentage has been withheld as a trade secret.

Version: 1.0

Released: 2017-12-22 Revision Date: 2017-12-22

## 4. FIRST-AID MEASURES

**Inhalation** If irritation is experienced, move to fresh air. Get medical attention if irritation

or other symptoms develop and persist.

**Skin Contact** Wash skin with soap and water. Remove clothing and shoes if contaminated.

Launder clothing before reuse. If irritation or rash develops, get medical

attention.

**Eye Contact** Flush eyes with water for several minutes. Remove contact lenses, if present

and easy to do so. If eye irritation persists, get medical attention.

**Ingestion** If conscious, rinse mouth with water. Do not induce vomiting. Never give

Immediate medical attention is not required.

anything by mouth to an unconscious person. Get medical attention.

Most Important Symptoms

May cause mild eye irritation. Causes mild skin irritation. Inhalation of vapors

or mist may cause respiratory irritation. Swallowing may cause

gastrointestinal irritation, nausea, vomiting and diarrhea.

Indication of

Immediate Medical Attention Needed

Notes to Physician Treat appropriately

## 5. FIRE FIGHTING MEASURES

**Suitable Extinguishing** 

Media

Specific Hazards

Arising From The

Chemical

**Special Protective** 

Equipment And

**Precautions For Fire-**

**Fighters** 

Use water fog, alcohol foam, dry chemical or carbon dioxide (CO2) to

extinguish flames. A solid stream of water or foam can cause frothing. This product is not flammable but may form explosive mixtures in air.

Combustion will produce carbon oxides, aldehydes and ethers.

Firefighters should wear full emergency equipment and approved positive

pressure self-contained breathing apparatus. Cool exposed intact

containers with water.

## **6. ACCIDENTAL RELEASE MEASURES**

**Personal Precautions** Wear appropriate protective equipment. Wash thoroughly after handling.

See also: "Personal Protection "section 8.

Environmental Hazards Avoid release into the environment. Report spill as required by local and

federal regulations.

Version: 1.0

Released: 2017-12-22 Revision Date: 2017-12-22

Methods/Materials for

Cleaning up

Dike spill and collect with an inert absorbent. Place into closable containers for disposal. Collected material is handled in accordance with section 13

"Disposal Considerations".

#### 7. HANDLING AND STORAGE

**Precautions for Safe** 

Handling:

Avoid contact with eyes, skin and clothing. Avoid breathing vapors and mists. Wash thoroughly with soap and water after handling. Remove

soaked clothing and launder before re-use.

**Conditions for Safe** 

Storage

Store in a cool area away from oxidizing agents. Protect containers from physical damage. Brake fluids absorb water from the atmosphere – always

keep containers tightly closed.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Exposure Limits** Polydimethylsiloxane None Established

Tributylphosphate OSHA PEL: 5 mg/m<sup>3</sup>

ACGIH TLV: 5 mg/m<sup>3</sup> (IFV)

**Appropriate** 

**Engineering Controls** 

Good general room ventilation (equivalent to outdoors) should be adequate under normal conditions. If the recommended exposure limit is exceeded increased mechanical ventilation such as local exhaust may be required.

**Personal Protection** 

Respiratory Protection:

None needed under normal use conditions with adequate ventilation. If exposure limits are exceeded, use a NIOSH approved respirator with organic

vapor cartridges and particulate pre-filter. Selection of respiratory protection depends on the contaminant type, form and concentration. Select in accordance with OSHA 1910.134 and good Industrial Hygiene

practice.

Eye Protection: Skin/Body Protection:

Safety glasses or goggles recommended if splashing is possible.

Appropriate protective clothing as needed to minimize skin contact.

Suitable eye flushing facilities should be available in the work area.

Contaminated clothing should be removed and laundered before re-use.

**Hand Protection:** Use neoprene or PVC gloves for prolonged or repeated skin contact.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

**Appearance** Clear liquid

**Color** Usually dyed purple

Odor Bland

**Odor Threshold** N/A – very low odor

Version: 1.0

Released: 2017-12-22 Revision Date: 2017-12-22

pH 7.0 to 11.5
Freezing Point <-58°F (-50°C)
Boiling Point >500°F (260°C)
Flash Point >302°F (150°C)
Evaporation Rate Negligible

Flammability (solid, gas) Not established (non-volatile)

Upper Explosion LimitNo data availableLower Explosion LimitNo data available

Vapor Pressure < 2 mbar

Vapor Density (Air=1) Not established (non-volatile)
Relative Density 0.945-0.965 g/ml @68°F

**Solubility** In ethanol: partly soluble; In water: immiscible

Partition Coefficient: n- Not established

octanol/water

Auto Ignition > 752°F (400°C)

**Temperature** 

**Decomposition** > 752°F (400°C)

**Temperature** 

**Volatile Organic** No data available

Compounds (VOC)

Viscosity Approx. 35-50 cSt @68°F

# 10. STABILITY AND REACTIVITY

**Reactivity** Not expected to be reactive.

**Chemical Stability** Stable. **Possibility of Hazardous** None known.

Reactions

**Conditions to Avoid** Avoid contact with moisture as product is hygroscopic.

Incompatible Materials 
Avoid contact with strong oxidizing agents. For user safety, brake fluid

should never be contaminated with any other substance.

Hazardous Decomposition Product Thermal decomposition may produce carbon oxides and

unidentified organic compounds.

#### 11. TOXICOLOGICAL INFORMATION

#### **Potential Health Hazards**

Eye Contact: May cause mild irritation.

**Skin Contact:** Prolonged skin contact may cause irritation.

**Inhalation:** Excessive inhalation of vapors or mists may cause upper respiratory tract irritation. **Ingestion:** Swallowing large amounts may cause gastrointestinal effects including nausea and diarrhea. Tributylphosphate has been shown to cause cancer in animal feeding studies.

Version: 1.0

Released: 2017-12-22 Revision Date: 2017-12-22

Chronic Effects of Overexposure: None known.

Sensitization: None of the components have been found to cause sensitization in animals or humans.

**Mutagenicity:** This product is not expected to cause mutagenic activity.

**Reproductive Toxicity:** This product is not expected to cause reproductive or developmental effects. **Carcinogenicity:** Product is classified as a carcinogen. Tributylphosphate has been shown to cause

cancer in the urinary bladder in rats in feeding studies.

**Acute Toxicity:** 

Product Oral rat LD50 >5000 mg/kg, Inhalation rat LC50 NA, Dermal rat LD50

>3000 mg/kg

Tributylphosphate Oral rat LD50 300-2000 mg/kg, Inhalation rat LC50 >4.0 mg/L/4 hr,

Dermal rabbit LD50 >2000 mg/kg

## 12. ECOLOGICAL INFORMATION

**Ecotoxicity** 

Tributylphosphate 96 hr LC50 Goldfish >170 mg/L, 48 hr EC50 water flea >70 mg/L, 72

hr EC50 green algae >20 mg/L

**Biodegradation** Tributylphosphate is readily biodegradable.

**Bioaccumulation** Tributylphosphate has a BCF of 21-35 which suggests a low potential for

bioaccumulation.

**Mobility in soil** The product is not water soluble (floats on water). Limited mobility in soil.

Other adverse effects: None known.

# 13. DISPOSAL CONSIDERATIONS

**Disposal** Dispose in accordance with all local, state and federal regulations.

# 14. TRANSPORT INFORMATION

	UN Number	Proper shipping name	Hazard Class	Packing Group	Environmental Hazard
DOT		Not Regulated			
TDG		Not Regulated			
IMDG		Not Regulated			
IATA		Not Regulated			

**Transport in bulk (according to Annex II of MARPOL 73/78 and the IBC Code):** Not applicable – product is transported only in packaged form

Special precautions: None known.

Version: 1.0

Released: 2017-12-22 Revision Date: 2017-12-22

#### 15. REGULATORY INFORMATION

**CERCLA:** This product is not subject to CERCLA reporting requirements, however, oil spills are reportable to the National Response Center under the Clean Water Act and many states have more stringent release reporting requirements. Report spills required under federal, state and local regulations.

**EPA SARA 302:** This product does not contain chemicals regulated under SARA Section 302.

EPA SARA 311 Hazard Classification: Chronic health

**EPA SARA 313:** This product contains the following chemicals that are regulated under SARA Title III, section 313: None.

**California Proposition 65:** This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

## **Chemical Inventories**

Toxic Substances Control Act: All of the components of this product are listed on the TSCA inventory

## **16. OTHER INFORMATION**

NFPA Rating (NFPA 704): Health: 2 Fire: 1 Instability: 0 HMIS Rating: Health: 2\* Fire: 1 Physical Hazard: 0

Chronic health hazard
