1. IDENTIFICATION OF THE SUBSTANCE / APPLICATION AND THE COMPANY

Supplier: Product Name: Fuel Enhancer

Maxima Racing Oils **Article Number:** 80-89930, 80-89901, 80-89505, 80-89055

Applications: Fuel Storage Treatment Additive

2. HAZARDS IDENTIFICATION

GHS Classification

Flammable Liquid Category 4
Aspiration Toxicity Category 1

GHS Pictogram

Signal Word Danger!

Hazard Statements H227 Combustible Liquid

H304 May be fatal if swallowed and enters airways.

Precautionary Statements

Prevention P210 Keep away from flames and hot surfaces. No smoking.

P280 Wear protective gloves.

Response P301 + P310 IF SWALLOWED: Immediately call a POISON CENTER or doctor.

P331 Do NOT induce vomiting.

P370 + P378 In case of fire: Use ... to extinguish.

Storage P403 + P235 Store in a well-ventilated place. Keep cool.

P405 Store locked up.

Disposal P501 Dispose of contents and container in accordance with local and

national regulations.

Other Hazards None

3. COMPOSITION / INFORMATION ON INGREDIENTS

ComponentsContent %CAS NumberNaphtha (petroleum), hydrotreated heavy90-100%64742-48-9

The specific identity and/or exact percentage has been withheld as a trade secret.

Version: 1.0

Released: 2018-06-13 Revision Date: 2018-06-13

4. FIRST-AID MEASURES

Inhalation If inhaled remove to fresh air. If irritation or difficulty in breathing occurs, get

medical attention.

Skin Contact Remove contaminated clothing. Wash skin with soap and water. Launder

clothing before reuse. Get medical attention if irritation develops.

Eye Contact Flush eyes with water for several minutes. Remove contact lenses, if present

and easy to do so. If eye irritation persists, get medical attention.

If conscious, rinse mouth with water. Do not induce vomiting. Never give Ingestion

Get immediate medical attention if swallowed.

anything by mouth to an unconscious person. Get medical attention.

Most Important

Symptoms

May cause mild eye irritation. Prolonged skin contact may cause irritation. Inhalation of vapors or mists may cause respiratory irritation. Swallowing may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Aspiration

during swallowing or vomiting may cause lung damage.

Indication of

Immediate Medical Attention Needed

Notes to Physician Treat appropriately

5. FIRE FIGHTING MEASURES

Suitable Extinguishing

Media

Specific Hazards Arising From The

Chemical **Special Protective Equipment And**

Precautions For Fire-

Fighters

Use water fog, foam, dry chemical or carbon dioxide (CO2) to extinguish

flames. Do not use a solid stream of water.

Combustible liquid. Closed containers may explode if exposed to extreme heat. Product will float on the surface and spread fire. Combustion may produce carbon and sulfur oxides and unidentified organic compounds. Firefighters should wear full emergency equipment and a NIOSH approved positive pressure self-contained breathing apparatus. Cool exposed intact

containers with water

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions Evacuate spill area and keep unprotected personnel away. Remove all

> sources of ignition. Ventilate area with explosion proof equipment. Wear appropriate protective clothing. See also: "Personal Protection "section 8. Avoid release into the environment. Report spill as required by local and

Environmental Hazards

federal regulations.

Methods/Materials for

Cleaning up

Contain and collect using inert absorbent materials and place in

appropriate containers for disposal. Use non-sparking tools and equipment. If spill has not ignited, use water spray to disperse the vapors and protect

Version: 1.0

Released: 2018-06-13 Revision Date: 2018-06-13

> personnel attempting to stop leak. Ensure collected material is handled in accordance with section 13 "Disposal Considerations".

7. HANDLING AND STORAGE

Precautions for Safe

Handling:

Avoid contact with the eyes, skin and clothing. Do not breathe vapors or mists. Wear protective clothing and equipment. Use only with adequate ventilation. Wash thoroughly with soap and water after handling. Keep containers closed when not in use. Keep away from heat, sparks, flames and all other sources of ignition. Do not permit smoking in use or storage areas. Store in a cool, dry, well-ventilated area away from heat, direct sunlight and all sources of ignition. Store in accordance with regulations for the storage

Conditions for Safe Storage

of flammable liquids. Store away from oxidizers and other incompatible materials. Protect from physical damage.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Limits Naphtha (petroleum), 500 ppm TWA OSHA PEL

> hydrotreated heavy (as stoddard 100 ppm TWA ACGIH TLV

solvent)

Appropriate

Engineering Controls

Good general room ventilation (equivalent to outdoors) should be adequate under normal conditions. If the recommended exposure limit is exceeded increased mechanical ventilation such as local exhaust may be required.

Personal Protection

Respiratory **Protection:**

None needed under normal use conditions with adequate ventilation. If exposure limits are exceeded, use a NIOSH approved respirator with organic

vapor cartridges and particulate pre-filter. Selection of respiratory protection depends on the contaminant type, form and concentration. Select in accordance with OSHA 1910.134 and good Industrial Hygiene

Safety glasses or goggles recommended if splashing is possible. Eye Protection:

No special protective clothing is normally required. If there is a potential Skin/Body Protection:

> for prolonged skin contact, wear a long sleeved shirt and apron. Neoprene or nitrile rubber boots when necessary to avoid contaminating shoes.

Hand Protection: Use nitrile gloves for prolonged or repeated skin contact.

10. STABILITY AND REACTIVITY

Reactivity Not expected to be reactive.

Chemical Stability Stable. **Possibility of Hazardous** None known.

Reactions

Conditions to Avoid Keep away from heat, sparks and open flames. **Incompatible Materials** Avoid contact with strong oxidizing agents.

Hazardous Decomposition Product Thermal decomposition may produce carbon and sulfur oxides

and unidentified organic compounds.

11. TOXICOLOGICAL INFORMATION

Potential Health Hazards

Eye Contact: May cause mild irritation

Skin Contact: Prolonged or repeated contact may cause mild irritation or dryness. Repeated skin

contact may cause dermatitis.

Inhalation: Excessive inhalation of vapors or mists may cause upper respiratory tract irritation and central nervous system effects including headache, dizziness and nausea. Breathing high concentrations of oil mists may cause lung damage.

Ingestion: Swallowing large amounts may cause gastrointestinal effects including nausea and diarrhea. Aspiration during swallowing or vomiting may cause lung damage.

Chronic Effects of Overexposure: Used motor oils have been found to cause skin cancer in skin painting studies with laboratory animals.

Version: 1.0

Released: 2018-06-13 Revision Date: 2018-06-13

Sensitization: None of the components have been found to cause sensitization in animals or humans.

Mutagenicity: This product is not expected to cause mutagenic activity.

Reproductive Toxicity: This product is not expected to cause reproductive or developmental effects. **Carcinogenicity**: None of the components of this product are listed as a carcinogen or suspected

carcinogen by IARC, NTP, or OSHA.

Acute Toxicity:

Naphtha (petroleum), Oral rat LD50 >5000 mg/kg, Dermal rat LD50 >5000 mg/kg,

hydrotreated heavy

12. ECOLOGICAL INFORMATION

Ecotoxicity

Naphtha (petroleum), 96 hr LL50 fish >100 mg/L, 48 hr EL50 daphnia magna >100 mg/L,

hydrotreated heavy 72 hr EL50 algae >100 mg/L

BiodegradationNaphtha (petroleum), hydrotreated heavy is readily biodegradable. **Bioaccumulation**Naphtha (petroleum), hydrotreated heavy has the potential to

bioaccumulate.

Mobility in soil Naphtha (petroleum), hydrotreated heavy floats on water surfaces. If it

enters the soil, it will adsorb to soil particles and will not be mobile.

Other adverse effects: None known.

13. DISPOSAL CONSIDERATIONS

Disposal Dispose in accordance with all local, state and federal regulations.

14. TRANSPORT INFORMATION

	UN	Proper shipping name	Hazard Class	Packing	Environmental
	Number			Group	Hazard
DOT	UN1268	Petroleum Distillated n.o.s.	Combustible	PGIII	No
			Liquid		
TDG		Not Regulated			
IMDG		Not Regulated			
IATA		Not Regulated			

Transport in bulk (according to Annex II of MARPOL 73/78 and the IBC Code): Not applicable – product is transported only in packaged form

Special precautions: None known.

Version: 1.0

Released: 2018-06-13 Revision Date: 2018-06-13

15. REGULATORY INFORMATION

CERCLA: This product is not subject to CERCLA reporting requirements, however, oil spills are reportable to the National Response Center under the Clean Water Act and many states have more stringent release reporting requirements. Report spills required under federal, state and local regulations.

EPA SARA 302: This product does not contain chemicals regulated under SARA Section 302.

EPA SARA 311 Hazard Classification: Fire Hazard, Acute Health

EPA SARA 313: This product contains the following chemicals that are regulated under SARA Title III,

section 313: None

California Proposition 65: This product contains the following chemicals known to the State of

California to cause cancer and reproductive toxicity:

Naphthalene 91-20-3 <0.003% Cancer

Chemical Inventories

Toxic Substances Control Act: All of the components of this product are listed on the TSCA inventory **Canadian CEPA:** All of the components in this product are listed on the Canadian DSL.

Korea: All of the components in this product are listed on the Korean Existing Chemical Inventory (KECL).

16. OTHER INFORMATION

NFPA Rating (NFPA 704): Health: 2 Fire: 2 Instability: 0 HMIS Rating: Health: 2 Fire: 2 Physical Hazard: 0
