MPS-AK84

MPS-AK82 / MPS-AK84 POWERSPORTS/MOTORCYCLE AMP KITS (2 & 4 CHANNEL)

PRODUCT OVERVIEW

The MPS-AK82 and MPS-AK84 are 2 channel and 4 channel amplifier kits designed to be used on motorcycles or any other powersports vehicle where removal of the amplifier may be required. They have quick disconnects for the power and signal wires that allow you to remove the amplifier without having to disconnect all the wires from the amplifier. For motorcycles with saddle bags with the amplifier installed in them, they allow easy removal.

MPS-AK82

- 2 channel amplifier wiring kit
- 6' of 8 gauge power/ground OFC wire with ring terminals
- Waterproof fuse holder with (2) 30 amp fuses
- 10' Long speaker wire
- RCA's are 9' long
- Power/Ground, speaker wires, and RCA's all on quick disconnect connectors for easy removal of amplifier
- RCA's and speaker wires individually labeled for easy identification

MPS-AK84

- 4 channel amplifier wiring kit designed for the right saddle bag
- 6' of 8 gauge power/ground OFC wire with ring terminals
- Waterproof fuse holder with (2) 30 amp fuses
- Power/Ground, speaker wires, and RCA's on quick disconnect for easy removal of amplifier
- RCA's are 9' long
- Front left/right speaker wires are 10' long
- Left rear speaker wire is 10' long including a 2.5' extension jumper for added length if needed. The extension can be removed if the added length is not needed
- Right rear speaker wire is 3' long
- Power/Ground, speaker wires, and RCA's all on quick disconnect connectors for easy removal of amplifier
- RCA's and speaker wires individually labeled for easy identification
