Ultra mileage

Metzeler ME 888 MARATHON™ ULTRA is the best partner for long and safe travelling on cruiser, tourers and their custom versions.

To achieve this targets, Metzeler designers finely combined the specifications which determine the characteristics of tyres: profile, structure, tread pattern and compound.

The structure shape features a flat and wide geometry that conveys and dissipates toward the sidewall the stress generated under the footprint, reducing the

Wet behavior

Grip on wet

The tread pattern of ME 888 MARATHON™ ULTRA is an evolution of that of ME880' with the target to ensure a high level of water evacuation whilst increase wear uniformity across the whole tread.

Moreover, a relevant content of silica in the compound formulation ensures chemical grip on wet surfaces.
