

# Benefits

**Sporty Handling**

Grip in all conditions

Extended Mileage

## **Sporty handling**

The improved sporty handling transmits a strong feeling of safety and predictability, regardless of the conditions.

Our road racing derived profiles, feature high stiffness structures. Combine the two and you've got razor sharp agile handling, to suit sporty riding styles, whatever the road style.

# Benefits

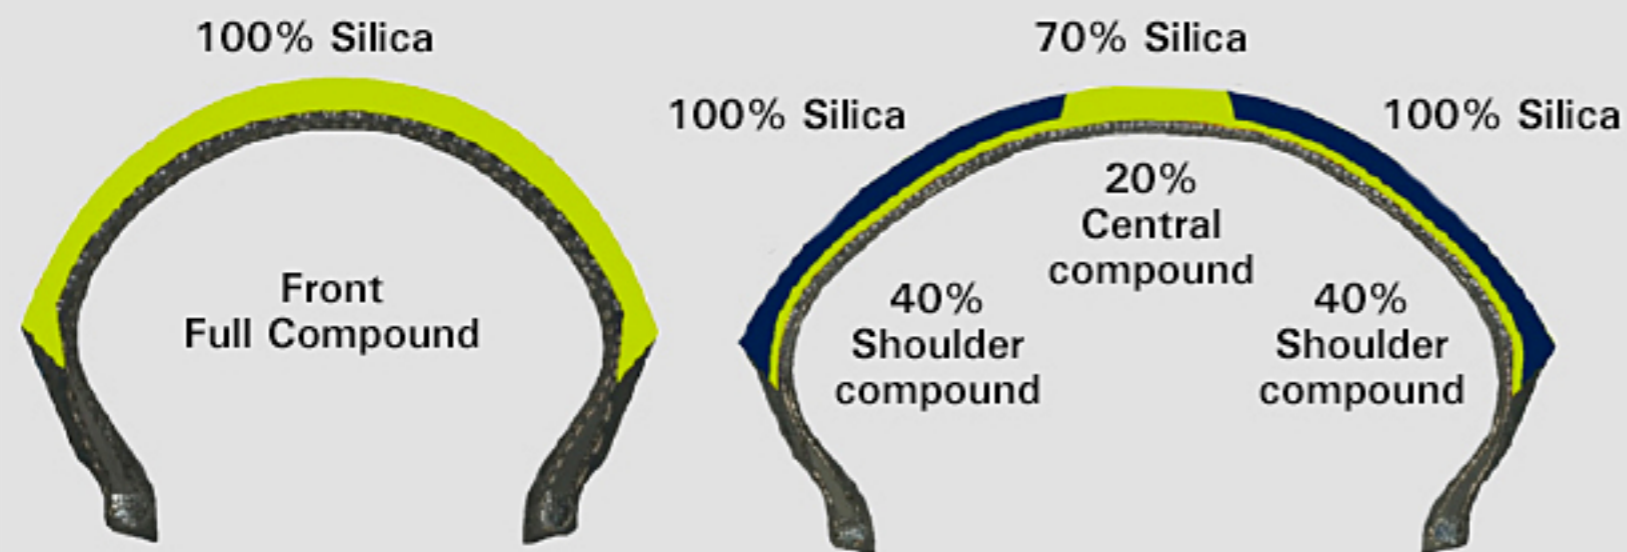

Sporty Handling

**Grip in all conditions**

Extended Mileage

## Grip in all conditions

100% silica compounds combined with a special tread pattern gives SPORTEC™ M7 RR the unique capability to maintain the sporty riding style, even in cold, wet and greasy conditions.

# Benefits

Sporty Handling

Grip in all conditions

**Extended Mileage**

## Extended mileage

20% more mileage compared to SPORTEC™ M5 INTERACT™. A dual compound solution on rear sizes allows the use of a specific material on the central slick portion of the tread pattern to increase abrasion resistance and extend the mileage capability.
