

# MICHELIN PILOT ROAD 2

Roadster, Sports, Sports Touring, Trail

The original dual-compound sport touring tire with excellent longevity, grip and handling

## Why choose MICHELIN Pilot Road 2?

### Superb Grip on Wet Surfaces and Quick Warm-up Time

The soft rubber mix on the tire's edges provides optimal grip on wet surfaces and an extremely fast warmup time.

### Longevity and Traction

MICHELIN 2CT technology allows for an even distribution of wear and tear over the entire tire, even under extreme stress. Thanks to its stronger rubber in the middle, the MICHELIN Pilot Road 2 tire provides longevity as well as optimal traction and braking.

### MICHELIN 2CT Dual-Compound Technology

Our dual-compound technology means we can use a combination of different rubbers on the tire's tread surface and thereby achieve exceptional performance levels in specific areas.

### Michelin always aims to bring together multiple performances.

At Michelin, we never work on one isolated element of performance. Instead, we focus on the whole package: safety, durability and the thrill of riding... all at the same time and with no trade-offs. That's what we mean by MICHELIN® Total Performance™.
