

MICHELIN

# PILOT ROAD 3

Cruiser/Custom, Roadster, Sports, Sports Touring, Trail

A combination of technologies for better grip on wet surfaces, for longer periods of time. Ride with total peace of mind in all types of weather!

## Why choose MICHELIN Pilot Road 3?

### An Innovative Tread for Better Grip on Wet Surfaces

The MICHELIN Pilot Road 3 tire tread incorporates innovative siping derived from our X-Sipe Technology, which provides better wet surface grip for greater safety. And a radically different look!

### XST Sipe Technology

Our XST Sipe Technology improves the tire's grip performance on wet surfaces. It offers the rider greater peace of mind in the rain as well as in dry weather in slippery areas (puddles, pavement, damp undergrowth areas, etc.)

### Longevity

A tire that lasts thanks to its MICHELIN 2CT dual-compound technology, which allows for even wear and tear and long-lasting performance.

### Michelin always aims to bring together multiple performances.

At Michelin, we never work on one isolated element of performance. Instead, we focus on the whole package: safety, durability and the thrill of riding... all at the same time and with no trade-offs. That's what we mean by MICHELIN® Total Performance™.
