

MICHELIN

STARCROSS 5 MEDIUM

MX

A high-performance motocross tire designed for mixed and hard terrains.

Why choose the MICHELIN Starcross 5 Medium?

Tested and Approved by Professionals

It took several years to develop these one-of-a-kind performance tires. During our tests, our motorcycles rode on the roughest terrains while enduring the most extreme conditions.

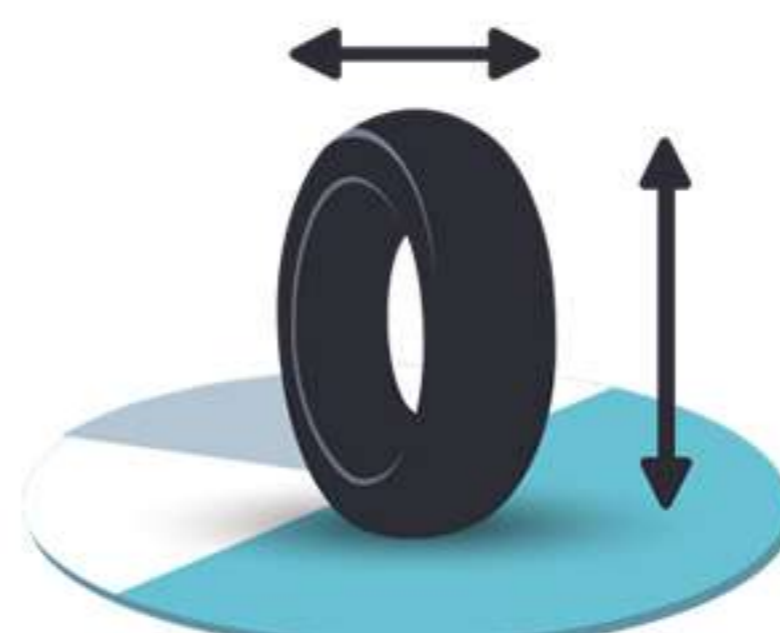

Outstanding Technical Performance

More lightweight and maneuverable, the new MICHELIN Starcross 5 Medium tire features a combination of technologies. The key point is its carcass, which is considerably more flexible. Its performance on straight stretches and curves is optimized, providing your motorcycle with improved traction and steadier handling around curves.

A Wide Variety of Sizes

A wider variety of sizes for more extensive usage possibilities.

Michelin always aims to bring together multiple performances.

At Michelin, we never work on one isolated element of performance. Instead, we focus on the whole package: safety, durability and the thrill of riding... all at the same time and with no trade-offs. That's what we mean by MICHELIN® Total Performance™.
