MICHELIN
STARCROSS 5 MINI

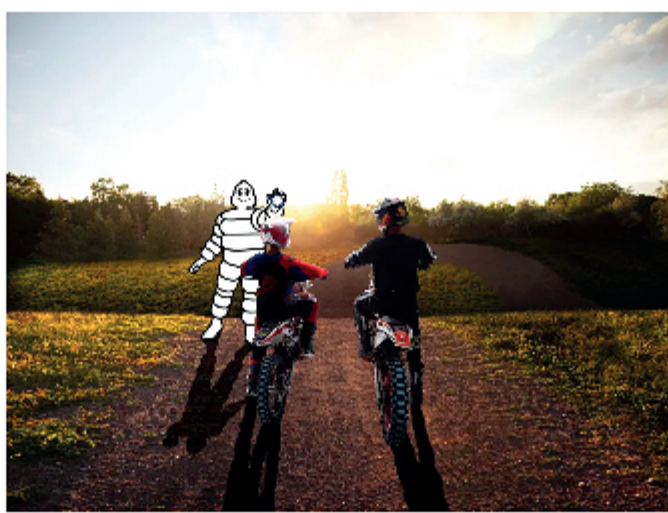

High-performance motocross tires for mixed to hard terrain for minibikes

Why choose MICHELIN Starcross 5 mini tires?

High performance for a broad range of conditions and terrain

Designed to deliver high levels of performance across the broadest range of conditions and terrain found in motocross and off-road riding.

Versatile all-day performance

The tire's versatility allows riders to enjoy optimized performance in conditions and terrain that can often change over the course of a day.

Traction at all lean angles

The intermediate tread blocks are positioned in staggered rows to maximize traction and feedback throughout varying lean angles.
