FOR EVERY RIDER

RIDERS COME IN ALL SHAPES AND SIZES. SO SHOULD MOTORCYCLE SEATS. FROM LONG-DISTANCE TOURERS TO CASUAL CRUISERS, MUSTANG'S INDUSTRY-LEADING SELECTION OFFERS SOLUTIONS FOR EVERY RIDER. WHETHER YOU'RE AFTER CUSTOM STYLING, IMPROVED COMFORT, BACK SUPPORT AND ERGONOMICS, OR SOLO AND 2-UP VERSATILITY, WE HAVE THE SEAT YOU'RE LOOKING FOR. THE FOLLOWING GUIDE WILL HELP PINPOINT THE RIGHT ONE FOR YOU.

Handcrafted in America

10

ULTIMATE
COMFORT

LONG HAULIN'

MAX PROFILE

7 10 COMFORT BAROMETER

The comfort that put Mustang on the map! Seats that improve your riding posture and showcase the maximum amount of foam cushioning possible. Our Max Profile seats keep riders relaxed in the saddle mile after mile, after mile!

5

REALLY
COMFORTABLE

CASUAL CRUISIN'

MID PROFILE

4 6 COMFORT BAROMETER

Don't be "that rider" who slows down the pack to give the glutes a break every 100 miles. Mid Profile seats offer a significant upgrade in style compared to stock, and also provide enough comfort so you can keep up with your day-trippin' crew.

1

COMFORTABLE

JOY RIDIN'

LOW PROFILE

1 3 COMFORT BAROMETER

These "head turners" are bred for looks first, with comfort a close second. Expect improved comfort over other seats in this class, plus a streamlined look, all wrapped into a beautifully stylish seat that's guaranteed to get your ride noticed.

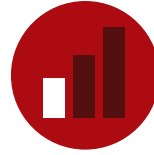

REDUCED REACH

GENERALLY 30" INSEAM & UNDER

Places the rider further forward, resulting in an easier reach to the handlebars and foot controls for improved comfort, confidence, and control.

"INSEAM CHALLENGED"

STANDARD REACH

GENERALLY 31" 32" INSEAM

Ideal for riders who are comfortable with the stock positioning of the seat, handlebars and foot controls, but simply want to improve seating comfort.

"AVERAGE JOE"

EXTENDED REACH

GENERALLY 33" INSEAM & ABOVE

Allows riders to stretch those long limbs, sitting further back for a less cramped, more comfortable cruising position.

"STRETCH ARMSTRONGS"

One size doesn't fit all...

At Mustang, we aim to provide the data you need to select the right seat not just for your motorcycle, but also for you. For many models, we offer seats with a variety of seating heights and positions that sit the rider at different distances from the tank than standard.

As a very general rule, riders with longer legs should choose an extended-reach seat, and riders with shorter legs should choose a reduced-reach or low seat, when available.

We want to be as accurate as possible, but there are many data points we simply can't predict, such as:

- Certain models use seats with different heights for different model years
- Some models are sold with seats that do not position riders the same as a more typical seat for that model
- Older OEM seats tend to be lower than newer ones, even with the same design, as the OEM seat foam will compress over time
- You might tend to ride with a different posture or style than other riders, and your unique anatomy may differ from the typical rider, so your perception may not match those of other riders

MAX PROFILE

If it's long-haul comfort you seek, you're in the right place. Max Profile seats are made for true road warriors. The ones who feast on a steady diet of mile markers and don't have time to recover from "monkey butt" after a long day's ride. Whether you're Inseam Challenged, an Average Joe, or Stretch Armstrong, our Max Profile seat options offer perfect posture, better back support, and commanding comfort. Mile after mile, after mile!

Note: Not all styles are available for all models. Seats pictured are examples of style and may differ from seats fitting your model.

LowDown™ Touring

AVAILABLE WITH OR WITHOUT DRIVER BACKREST

Intended for shorter riders to sit lower without compromising long-distance comfort. Angled for optimal touring posture, lower than the stock position on most models, and cut narrow at the nose so you can plant feet firmly on the ground. Available for 1997-up FL Touring.

COMFORT BAROMETER **EXTREMELY COMFORTABLE** 7

BEST FOR **REDUCED REACH** 11

Sport Touring

AVAILABLE WITH OR WITHOUT DRIVER BACKREST

Offers rider and passenger the all-day comfort of a touring seat, but is slightly less rounded on the sides for a sportier look. Seat nose is narrower than stock so riders can plant feet firmly on the ground. Great option for tall or average riders.

COMFORT BAROMETER **EXTREMELY COMFORTABLE** 7

BEST FOR **STANDARD REACH** 1

Standard Touring

AVAILABLE WITH OR WITHOUT DRIVER BACKREST

Best for average-sized riders who are comfortable with stock positioning and simply want to increase comfort. Contoured bucket for good lower back support, cut narrow at the nose so riders can plant feet firmly on the ground.

COMFORT BAROMETER **EXTREMELY COMFORTABLE** 8

BEST FOR **STANDARD REACH** 1

Standard Touring Forward

AVAILABLE WITH OR WITHOUT DRIVER BACKREST

Positions riders at least 1" forward compared to typical touring seats, but not lower. Contoured bucket for good lower back support, cut narrow at the nose so riders can plant feet firmly on the ground. Available for H-D® Freewheeler.

COMFORT BAROMETER **EXTREMELY COMFORTABLE** 8

BEST FOR **REDUCED REACH** 1

Wide Touring

AVAILABLE WITH OR WITHOUT DRIVER BACKREST

Sits the rider in a similar position compared to stock, but provides extra width in the hip area for all-day comfort. Deep pocketed for good lower back support, slightly narrower at the nose to make stop-and-go riding a little easier.

COMFORT BAROMETER **ULTIMATE COMFORT** 9

BEST FOR **STANDARD REACH** 1

Super Touring

AVAILABLE WITH OR WITHOUT DRIVER BACKREST

Ideal for taller riders. Positions the rider at least 1" further back compared to most touring seats. Extra width in the hips, deeply pocketed for good lower back support, and slightly narrower at the nose to make stop-and-go riding easier. Available for '97-up FL Touring.

COMFORT BAROMETER **ULTIMATE COMFORT** 10

BEST FOR **EXTENDED REACH** 1

MID PROFILE

Anyone who's ever said "you can't eat your cake and have it too" has obviously never rested their derriere on a Mustang Mid Profile seat. Not only will you get a significant upgrade in style compared to stock, you'll also feel the difference in improved comfort where, and when, it matters most. These seats are ideal for riders who want the best of both worlds—looks that kill and comfort that keeps you cruisin' along with your day-trippin' crew.

Note: Not all styles are available for all models. Seats pictured are examples of style and may differ from seats fitting your model.

*Low Tripper*sm

Ideal for shorter riders who want to sit lower than stock without moving forward or back (0.75" lower than Tripper Solo). Available for H-D® Sportster Models.

COMFORT BAROMETER **QUITE COMFORTABLE** 4

BEST FOR **REDUCED REACH** 1

*Tripper*sm

Lowers the rider while maintaining a similar distance from the controls compared to stock. Optional passenger seat sold separately.

COMFORT BAROMETER **REALLY COMFORTABLE** 5

BEST FOR **STANDARD REACH** 1

*DayTripper*sm

Sits rider and passenger lower without compromising comfort. Riders can be positioned slightly further back, but not a typical extended-reach seat. The smooth design flows with the fender for a streamlined look.

COMFORT BAROMETER **REALLY COMFORTABLE** 5

BEST FOR **STANDARD REACH** 1

*Tripper Fastback*sm

Similar to the DayTripper, but the rounded back delivers an even more streamlined look. Riders get more support and can get back slightly from standard position, while the passenger seat is still suitable for 2-up joy rides.

COMFORT BAROMETER **REALLY COMFORTABLE** 5

BEST FOR **STANDARD REACH** 1

Wide TripperSM

AVAILABLE WITH OR WITHOUT DRIVER BACKREST

Sits the rider lower than stock and features extra width in the hip area for increased comfort. Available as a sleek solo setup, with optional passenger seat sold separately for 2-up cruising.

COMFORT BAROMETER **REALLY COMFORTABLE** 6

BEST FOR **STANDARD REACH** 1

Wide TripperSM Forward

AVAILABLE WITH OR WITHOUT DRIVER BACKREST

Places the rider approximately 1.5" forward from the stock position, sits the rider lower, and features extra width in the hip area for added comfort. Available for most '06-'17 Dyna models.

COMFORT BAROMETER **REALLY COMFORTABLE** 6

BEST FOR **REDUCED REACH** 1

FastbackSM

Cut low for the rider with a raised tail section to offer excellent lower back support. Positions the rider slightly further back with a seat height that's similar to stock. Tapered passenger area is suitable for 2-up joy rides.

COMFORT BAROMETER **REALLY COMFORTABLE** 6

BEST FOR **STANDARD REACH** 1

Hightail FastbackSM

Sits the rider further back and lower than the original Fastback and is cut low with an extended tail section for supreme lower back support. The rounded and tapered rear is suitable for 2-up joy rides.

COMFORT BAROMETER **REALLY COMFORTABLE** 6

BEST FOR **EXTENDED REACH** 1

Super TripperSM

Places the rider lower and further back without sacrificing comfort. This stylish option is ideal for taller riders looking for added leg room and a slightly lower seating position. Available for H-D[®] Models.

COMFORT BAROMETER **REALLY COMFORTABLE** 6

BEST FOR **EXTENDED REACH** 1

Squareback

Provides great lower back support for the rider in a seating position similar to stock. The squared-off rear seat is great for passenger comfort and also offers a level surface for supporting luggage.

COMFORT BAROMETER **REALLY COMFORTABLE** 6

BEST FOR **STANDARD REACH** 1

LOW PROFILE

Just because these head-turners are classified as “Low Profile,” don’t get fooled into thinking we left comfort completely by the wayside. These knockouts are guaranteed to get noticed while still offering an improved overall ride compared to stock. Lean profiles, streamlined contours, plus a wide variety of stitch patterns, colors, and customization capabilities guarantees your next Instagram pic will get its fair share of #ThatSeatTho reposts.

Note: Not all styles are available for all models. Seats pictured are examples of style and may differ from seats fitting your model.

*RunAround*SM

This is the lowest and leanest seat offered from Mustang. Drops the rider down significantly and delivers a streamlined look for your ride.

COMFORT BAROMETER **COMFORTABLE** 2

BEST FOR **REDUCED REACH** 1

Cafe

This lower and sleeker version of the Fastback is a true café racer-inspired solo styled for a simple yet striking appearance with good lower back support. Available for H-D® Sportster.

COMFORT BAROMETER **QUITE COMFORTABLE** 3

BEST FOR **STANDARD REACH** 1

Classic

Available for Triumph T100 spec only. Designed to keep Triumph’s period-correct styling in-tact, incorporating modern materials for added comfort.

COMFORT BAROMETER **QUITE COMFORTABLE** 3

BEST FOR **STANDARD REACH** 1

Spring

Ideal for minimalist riders seeking retro looks combined with the top-of-the-line materials to give your ride that classic vibe only a spring solo seat can deliver.

COMFORT BAROMETER **COMFORTABLE** 1

BEST FOR **STANDARD REACH** 1

Revere Journey

Available in a variety of custom stitch patterns, the Journey sits riders lower than stock at a similar reach with a slightly raised tail section to eliminate sliding back. Two-up versions have a tapered passenger area for joy-riding. Available for H-D® models

COMFORT BAROMETER **QUITE COMFORTABLE** 3

BEST FOR **STANDARD REACH** 1

Revere Runner Vent

Flaked-out vinyl inlays combined with a super low profile drops the rider down significantly compared to stock while delivering a true custom appearance. Available for H-D® models.

COMFORT BAROMETER **COMFORTABLE** 2

BEST FOR **REDUCED REACH** 1

Signature Series by Dave Perewitz

Legendary designs from renowned bike builder Dave Perewitz combined with legendary Mustang comfort. Sits the rider lower and slightly further back from stock, with detailed stitch work for unmistakable style. Available for H-D® Touring & Softail models.

COMFORT BAROMETER **QUITE COMFORTABLE** 3

BEST FOR **EXTENDED REACH** 1

Signature Series by Jody Perewitz

Designed for speed and style by one of the fastest ladies on the planet, land-speed record holder Jody Perewitz. Sits the rider lower and provides a streamlined look for your ride. Available for H-D® Dyna & FXR models.

COMFORT BAROMETER **COMFORTABLE** 1

BEST FOR **STANDARD REACH** 1

Signature Series by John Shope

The "Dirty Bird" put his own custom twist on these seats designed for Indian. Cut low for good lower back support, with a narrower nose to help firmly plant your feet on the street in stop-and-go riding. Available for Indian® models.

COMFORT BAROMETER **QUITE COMFORTABLE** 3

BEST FOR **STANDARD REACH** 1

Signature Series by Fred Kodlin

If Fred Kodlin puts his name on something, it's guaranteed to perform. These signature seats blend high-quality materials with a low, lean profile that sits riders comfortably lower than stock and allows slightly further back positioning.

COMFORT BAROMETER **QUITE COMFORTABLE** 3

BEST FOR **STANDARD REACH** 1

WHY MUSTANG SEATS ARE SO COMFORTABLE

YOU SHOULD ALWAYS ENJOY YOUR RIDE – WHETHER FIVE OR FIVE HUNDRED MILES. MUSTANG SEATS ARE METICULOUSLY DESIGNED SO THAT THE BASEPLATE, FOAM AND COVER COMPONENTS COMBINE TO MAKE THE FINEST, MOST COMFORTABLE SEAT POSSIBLE.

Baseplates

THE FOUNDATION OF COMFORT. MUSTANG SEATS ARE BUILT ON 16-GAUGE STEEL OR MARINE-GRADE FIBERGLASS BASEPLATES—NEVER PLASTIC—FOR LONG-TERM DURABILITY AND SUPPORT.

Exposed brackets are bright chrome plated

Carpet protects the fender paint.

Formed 16 gauge steel baseplates are black epoxy powder coated on both sides for complete rust proofing.

The edges of baseplates have a steel reinforced, impact absorbing vinyl edge trim to protect the seat cover.

Marine-grade fiberglass baseplates are 3/16" thick & finished in high gloss gel coat.

Polyurethane bumpers are strategically located and riveted to the baseplate to prevent it from touching the frame and fender and to minimize vibration.

Foam

THE HEART OF EVERY MUSTANG SEAT. THE EXACT SHAPE, ANGLE AND DENSITY OF EVERY SEAT ARE PRECISELY CALCULATED USING MUSTANG'S PROPRIETARY CONTROLLED-DENSITY POLYURETHANE FOAM FORMULA. COMBINED WITH DECADES OF DESIGN EXPERIENCE, THE RESULT IS NO BREAK-IN, NO SAGGING, AND ALL-DAY COMFORT FOR RIDER AND PASSENGER.

- Offers even weight displacement to eliminate pressure points or "hot spots"
- Known to retain its shape and support after years of use
- Soft enough for comfort, resilient enough to withstand 1,000-mile days
- Allows proper blood flow to diminish numbness or pain
- Durability: retains its comfort and support in hot or cold temperatures

Cover

BEAUTY IS ONLY SKIN DEEP, BUT THE SKIN IS WHAT SHOWS. MUSTANG'S PRECISION-CUT, HAND-STITCHED SEAT COVERS ARE MADE FROM THE FINEST MATERIALS AND CAN'T BE MASSED PRODUCED. ONLY AN EXPERIENCED STITCHER CAN MAKE A MUSTANG A MUSTANG.

- Made from high quality expanded vinyl
- Offers the appearance of leather but the durability and resistance to elements that exceed OEM standards
- All seams are reinforced for strength and weather resistance
- Hemmed bottom edges hand-riveted to baseplates for strength
- Available in a wide variety of vinyl textures and stitch patterns

Jared
MEES
Jammer

DESIGNED BY
JARED MEES
Built By Mustang

Jared "Jammer" Mees is a fierce competitor on and off the track. The "Indian Wrecking Crew" rider's resume includes five Grand National Championships, Summer X Games gold, and top podium spots at the Superprestigio of the Americas and famed Troy Bayliss Classic. Whether bargin' bars in close quarters or comfortably leading the pack, Jared's tenacity and ability to blend speed with finesse have cemented his spot among the legends of flat track racing.

AVAILABLE FOR INDIAN®

DESIGNED BY
JOHN SHOPE
Built By Mustang

John Shope of Dirty Bird Concepts takes a vision and pushes it beyond conventional boundaries. The renegade "Risk Taker" is a veritable mastermind of unadulterated concepts capable of taking any ride to another level. Now the Dirty Bird is teaming up with Mustang Seats to develop the new Shope Signature Series designed exclusively for Indian Motorcycle. Two brands founded on purpose built products, delivering the ultimate fusion of custom design and quality craftsmanship.

AVAILABLE FOR INDIAN®

RSD SEATS ALSO AVAILABLE!
SEE PG 204 FOR MORE DETAILS

Roland Sands Design's inspiration comes from a high performance background that blends the love of two wheels with the desire to create unique products. We live the two wheeled life and our crew is a diverse collection of road racers, off road, dirt track, supermoto and custom bike builders and riders. It's this diversity that allows us to work with the best in the industry on a variety of projects.

DESIGNED BY

TZ

Built By Mustang

One of the America's original custom builders, Dave is proud of his New England roots. Perewitz Cycle Fab, located in Br dgewater, Massachusetts, is just an hour from Mustang in Three Rivers, Massachusetts. A legend was born when Dave Perewitz built his first bike in 1973. Since then, his artistry and skills have garnered a worldwide reputation in building custom designed bikes, leading the pack with iconic style, legendary master craftsmanship and a deep seated passion for his work.

AVAILABLE FOR FL TOURING & SOFTAIL

DESIGNED BY

JODY PEREWITZ

Built By Mustang

Jody Perewitz has consistently broken records and opened doors for women riders. In 2011, she was the first woman to ride an American V Twin over 200 mph. In 2016, she averaged 206 mph at Bonneville, establishing herself as the fastest woman on an American motorcycle. She also designs and applies her own custom mixed paint schemes at Perewitz Cycle Fab. Now she's teaming up with Mustang to incorporate her passion for two wheels into Signature Series seats for FXR and Dyna models.

AVAILABLE FOR DYNA & FXR

DESIGNED BY

FRED KODLIN

Built By Mustang

Fred and Len Kodlin, Europe's most famous father son custom bike duo, have combined their design vision with the hand craftsmanship of Mustang. Fred Kodlin Signature Series feature inlays that incorporate high end materials for a luxurious texture, stunning appearance, and ultra durability.

AVAILABLE FOR HARLEY-DAVIDSON®

7 **LOWDOWN™ TOURING**

Riders asked-Mustang listened. Now solo riders can be lower without compromising long-distance comfort. Available with or without a fully adjustable and easily removable driver backrest, the LowDown solo's 13" wide bucket is shaped and angled for optimal touring posture on the go. It also drops you from stock position on most models and is cut narrow at the front, so you can plant your feet firmly on the ground at a stop. Both the 13.5" and the 11" regular passenger seats extend forward for additional rider back support. Recessed passenger seats are designed for use with solos equipped with a built-in driver backrest. Includes mini fender bib (78064) for a complete custom look, plus slotted mounting nuts (78032).

Note: Does not fit '08 models. All seating position notes are compared to the standard Electra Glide touring position. If your seat is a reduced reach, extended reach or low seat, these comparisons may not apply.

1 8 STANDARD TOURING

Available with or without a fully adjustable and easily removable driver backrest, the Standard Touring Solo features a nose narrower than stock so riders can more easily plant their feet on the ground. A deeply contoured 15" wide solo gives good lower back support, while the 13.5" wide matching passenger seat features internal steel support wings across the entire width for long-distance passenger comfort. Both the 13.5" and 11" regular passenger seats extend forward for additional driver back support for seats without the driver backrest. Recessed passenger seats are designed for use with solos equipped with a built-in driver backrest. Solo comes complete with chrome hardware (78032) and our mini fender bib (78064).

Note: Will not fit with handrail.

10 SUPER TOURING

Mustang's "Super" comfortable 17" wide solo sits the driver 1.25" further back than the stock seat and is available with or without a fully adjustable and easily removable driver backrest. Pair with an 8.5" or 11" passenger seat, or a recessed 13.5" passenger seat for comfortable 2-up riding. Recessed passenger seats are required for use with the available built-in driver backrest, and the recessed 13.5" passenger seat is recommended with Super Solos without a driver backrest. Choice of plain, chrome studs or black pearl-centered studs. Solo comes complete with chrome hardware (78032) and matching mini fender bib (78064).

Note: All seating position notes are compared to the standard Electra Glide touring position. If your seat is a reduced reach, extended reach or low seat, these comparisons may not apply.

7 **LOWDOWN TOURING**

The LowDown Touring's rider's bucket is shaped and angled for optimal touring posture on the go. It also drops you from the stock position on most models and is cut narrow at the front so you can plant your feet firmly on the ground at a stop. The 16.5" wide front bucket and the 14" wide rear seat are available plain or with studs (either chrome or chrome with black pearl centers). Seat will fit with a handrail. Will not work with H-D® or Mustang driver backrest kits. Available with or without a fully adjustable and easily removable driver backrest, the receiver for the driver backrest is built into the seat. Mustang backrest pad and post can be purchased later if desired.

Note: All seating position notes are compared to the standard Electra Glide touring position. If your seat is a reduced reach, extended reach or low seat, these comparisons may not apply.

1 8 STANDARD TOURING WITH HEAT

The one-piece touring design provides a 17" wide front bucket for the rider and a 14" wide seat for the passenger. The seat is available plain or with studs (either chrome or chrome with black pearl centers). The baseplate is open in the middle to accept a stock H-D® or Mustang driver backrest kit. Passenger backrest options are sold separately and do not contain heating elements. The seat is constructed on an extra-rugged marine-grade fiberglass baseplate. All heated seats come complete with a wire harness that connects to the accessory port. This port is energized only when the ignition key is turned on and the accessory toggle switch below the handlebars is flipped up. Seat will fit with a handrail.

Note: Installation on '14-'19 FL Touring requires use of H D® adapter 69200722 or 69201599, depending on the year. If the accessory port is already in use, install H D adapter 70264 94A or 70270 04, depending on the year, to add additional ports.

1 8 REGAL STANDARD TOURING

Mustang's one-piece Standard Touring features a contoured bucket for good lower back support, and a nose narrower than stock for easier ground reach when stopped. The Regal style features soft pillow comfort with just enough folds and pleats to allow the cover full freedom to flex and conform, tufted with hand-tied vinyl-covered buttons for a luxurious classic pillow-top look. Featuring a 17" wide front bucket and a 14" wide rear seat, these touring seats are available plain or with studs (either chrome, or chrome with black pearl centers). The baseplate is open in the middle to accept H-D® or Mustang driver backrest kits.

10 SUMMIT SUPER TOURING

Both you and your passenger will experience the peak of comfort with the Summit Super Touring Seat, designed specifically for Harley-Davidson® Rushmore models. The one-piece "Super" comfortable touring design with extra-wide passenger seat provides riders with the fullest, most comfortable seat possible. The 19" wide Super front bucket sits the driver 1.75" further back than the stock seat. The passenger seat is a full 16" wide and fits perfectly with the Rushmore speakers and Tour-Pak®. Seat will fit with a handrail, but will not work with H-D® or Mustang driver backrest kits. Receiver for the optional driver backrest is built into the seat.

Note: Specifically designed to fit all '14 later Rushmore models due to its wider passenger seat, but will also fit any '08-'13 Touring models without a Tour Pak® or saddlebags. Vinyl cover has a deeper gloss black color compared to other Mustang FL Touring seats. Seat will fit with handrail.

1 5 TRIPPER™

The Tripper solo and matching passenger seat form a two-piece version of the popular DayTripper seat. Sits the driver slightly lower and further back without compromising comfort so you can ride solo or together on a sleek, low-cut seat. Comes complete with chrome hardware (78032) and mini fender bib (78064).

Note: Will not fit with handrail. All seating position notes are compared to the standard Electra Glide touring position. If your seat is a reduced reach, extended reach or low seat, these comparisons may not apply.

1 5 DAYTRIPPER™

Mustang's advanced comfort technology lets you ride low, look cool and still be comfortable at the end of a day's ride. Places the driver slightly lower and further back compared to stock for more room in the saddle, with a 7" wide passenger area that offers comfortable 2-up riding. Features detailed stitch work in the highly durable synthetic glove-leather cover.

Note: All seating position notes are compared to the standard Electra Glide touring position. If your seat is a reduced reach, extended reach or low seat, these comparisons may not apply.

1 6 WIDE TRIPPER™

The one-piece Wide Tripper combines style and comfort, offering a full 14" width for the driver and an 11" wide passenger seat. The sleek design sits drivers lower than stock and is enhanced by detailed stitch work in the highly durable synthetic glove-leather cover. Available with or without a fully adjustable and easily removable driver backrest.

Note: All seating position notes are compared to the standard Electra Glide touring position. If your seat is a reduced reach, extended reach or low seat, these comparisons may not apply.

5 HIGHTAIL FASTBACK™

The HighTail Fastback is purpose-built for comfort, clean custom style, and keeping riders firmly planted in an aggressive riding position. This next-gen version of our original Fastback seat sits the rider slightly lower and further back than its predecessor, with a high-arching, tapered tail section that delivers exceptional back support. It's topped off with the highest quality expanded vinyl cover that combines detailed stitch work with smooth and perforated contrasting textures for a look unlike anything available. The tapered and sloped rear section is designed for short-distance 2-up cruising.

Note: All seating position notes are compared to the standard Electra Glide touring position. If your seat is a reduced reach, extended reach or low seat, these comparisons may not apply.

5 SUPER TRIPPER™

Sit lower and further back with Mustang's new Super Tripper. The 13.5" wide driver seat provides maximum seating radius plus sits the rider slightly lower and 1" further back compared to Mustang's top-selling DayTripper seats. The Original Super Tripper features a traditional black embossed cover with detailed stitch lines. The Super Tripper Carbon features a carbon fiber vinyl center panel with detailed gunmetal stitching.

Note: All seating position notes are compared to the standard Electra Glide touring position. If your seat is a reduced reach, extended reach or low seat, these comparisons may not apply.

2 SIGNATURE SERIES SOLO BY DAVE PEREWITZ

Cruise in legendary style with this uniquely designed solo. This one-of-a-kind seat designed by renowned motorcycle customizer Dave Perewitz is only 11" wide—narrower than any stock seat. It features an innovative hidden installation system so there are no visible bolts or brackets. Paired with the matching fender bib (78151, pg 60), this setup will keep you low and comfortable.

Note: Will not work with Mustang or stock passenger seats. All seating position notes are compared to the standard Electra Glide touring position. If your seat is a reduced reach, extended reach or low seat, these comparisons may not apply.

3 REVERE ODYSSEY

The Odyssey is designed for riders who want more room to roam while planted in the saddle, resting the operator lower and further back for a less confined feel that enhances comfort. If its streamlined profile, smooth contours and improved comfort are the cake, its distinct "Streak" stitch pattern is the icing on top. Comes with matching mini fender bib for later models with larger fender wiring port.

Note: All seating position notes are compared to the standard Electra Glide touring position. If your seat is a reduced reach, extended reach or low seat, these comparisons may not apply.

SLOTTED SOLO NUTS

Installs Passenger Seats on '99-'19 Road King and Softail models with a fender stud plate. Sold in pairs.

Solo Mounting Nuts	78032
--------------------	-------

QUARTER TURN™ THUMB SCREW

Chrome-plated, one-piece steel screw features a raised diamond knurl edge plus accepts a flat bladed screwdriver (or a quarter) to easily keep seat secure. Thread sizes to fit all H-D® applications. The screw is 1/8" longer for easier seat installation with saddlebags and luggage racks. Includes nylon washer but not a quarter!

1/4"-28, thru '95	78044
1/4"-20, '96-'16	78043

SPECIALTY SEAT SCREWS

Dress up your rear seat mount with this custom-designed screw. Machined out of 303 stainless steel for great looks and durability. Threaded at 1/4"-20 x 1/2" to fit modern H-D® fender nuts. Tighten by hand or with a 5/32" Allen wrench.

	PINION	SPROCKET	PISTON
9/16" head diameter	77995	77997	77999

OFFSET DRIVER BACKREST TONGUE

Replaces the standard driver backrest post in all Mustang solo seats that have the built-in driver backrest unit. It has all the features of our standard driver backrest but allows the driver to lean back 2" further. Not recommended for seats on which the driver backrest is built into the passenger seat or for FL driver backrest kits.

Offset Driver Backrest Tongue	75099
-------------------------------	-------

CROSS BRACKET FOR '09 '19 FL KIT

Converts Mustang FL '97-'08 driver backrest kits to fit '09-'19 FL models. Attaches to base with 1/4"-20 x 3/4" bolt (not included).

Cross Bracket for '09-up FL Kit	75030

10 SUPER TOURING

Mustang's "Super" comfortable 16" wide solo sits the driver 1.25" further back than the stock seat. Available with or without a fully adjustable, easily removable driver backrest for unsurpassed comfort. Pair with an 8.5" or 11" passenger seat, or a recessed 13.5" passenger seat for comfortable 2-up riding. Recessed passenger seats are required for use with the available built-in driver backrest, and the recessed 13.5" passenger seat is recommended with Super Solos without a driver backrest.

Note: Will not fit with handrail. Solos for '97 '07 FL Touring do not come with fender bib and slotted mounting hardware; these must be purchased separately. All seating position notes are compared to the standard Road King touring position. If your seat is a reduced reach, extended reach or low seat, these comparisons may not apply.

7 LOWDOWN™ TOURING

This "LowDown" touring seat sits the driver 1.5" lower than the stock seat, plus the nose of the seat is 1.5" narrower than stock. Now the driver can have a comfortable seat and still plant his or her feet safely on the ground. The 16.5" wide front bucket and the 14" wide rear seat are available plain or with black pearl centered studs. Available with or without a fully adjustable and easily removable driver backrest.

Note: Seat will not fit with a handrail. Will not work with H D® or Mustang driver backrest kits. Receiver for the driver backrest is built into the seat. Mustang's driver backrest pad and post can be purchased later if desired. All seating position notes are compared to the standard Road King touring position. If your seat is a reduced reach, extended reach or low seat, these comparisons may not apply.

1 8 REGAL STANDARD TOURING

Mustang's one-piece ultra comfortable touring design provides the rider and passenger with the fullest, most comfortable seat possible. Positions the rider at a similar reach to the controls compared to stock, with a seat nose narrower than stock so that the rider can plant his feet on the ground. The 17" wide front bucket and the 14" wide rear seat are available plain or with black pearl-centered chrome studs. Popular Regal styling is tufted with hand-tied vinyl-covered buttons for a luxurious classic pillow-top look and unbeatable comfort. The baseplate is open in the middle to accept a Mustang or H-D® driver backrest kit (sold separately). Road King seats will not work with an FLHT handrail.

10 DELUXE SUPER TOURING

The 19" wide front seat sets the rider back approximately 1" compared to stock and angles the body in ideal positioning for long-distance comfort. A 14" wide passenger seat provides support across its full width. Features include a high-quality expanded vinyl cover with detailed stitch work and tuck & roll center inlay styled after state-of-the-art automotive designs. The optional driver backrest kit includes a frame-mounted receiver and fully adjustable backrest that can be easily removed without tools for storage.

Note: Designed to work with Deluxe driver backrest kit 79659, sold separately. Will not fit with handrail. All seating position notes are compared to the standard Road King touring position. If your seat is a reduced reach, extended reach or low seat, these comparisons may not apply.

10 SUPER TOURING

Mustang's "Super" comfortable 16" wide solo sits the driver 1.25" further back than the stock seat, with a narrower nose so riders can more easily plant their feet on the ground. Available with or without a fully adjustable, easily removable driver backrest for unsurpassed comfort. Pair with an 8.5" or 11" passenger seat, or a recessed 13.5" passenger seat for comfortable 2-up riding. Recessed passenger seats are required for use with the available built-in driver backrest, and the recessed 13.5" passenger seat is recommended with Super Solos without a driver backrest.

Note: Will not fit with handrail. All seating position notes are compared to the standard Electra Glide touring position. If your seat is a reduced reach, extended reach or low seat, these comparisons may not apply.

75448

1 9 STANDARD TOURING

Mustang one-piece Wide Touring seats are narrower at the nose so the driver's feet can easily reach the ground. The 18" wide driver seat positions the rider at a similar reach to the controls compared to stock but provides extra width in the hip area for added comfort. The baseplate has been contoured in front to eliminate the hard spots the rider feels on long trips with the stock seat. The rear seat is specially designed to keep the passenger up off the handrail. The seat is contoured to better clear the saddlebag lids and is split to accept a Mustang or H-D® driver backrest kit (sold separately)

1 9 STANDARD TOURING WITH HEAT

The one-piece touring design provides the rider and passenger with the fullest, most comfortable seat possible. The seat is narrower at the nose than stock so riders can easily plant their feet on the ground, and also features extra width in the hip area for all-day comfort. The baseplate is open in the middle to accept Mustang or H-D® driver backrest kits (sold separately). The seat will fit with a handrail and is constructed on extra-rugged, triple-layered fiberglass. Driver backrest kit (page 83) and passenger backrest options (pages 86) are sold separately, and do not contain heating elements.

FX/FL BIG TWIN '58-'84

1 8 STANDARD TOURING

This Standard Touring seat features a full 12" front bucket for the rider with slightly raised back to eliminate sliding back while offering reasonable lumbar support. The seat is trimmed with a braided edge skirt that comes down over the frame and fender for a clean look. Two-piece foam is on a single-piece steel base that quickly bolts on using stock locations.

ONE-PIECE 2-UP	ORIGINAL	CHROME STUDDED
	75630	75302

1 9 WIDE TOURING

Wide Touring seats feature a wide driver bucket that's deeply pocketed and provides ample support. The rear seat also extends forward to provide additional back support. The passenger sits comfortably in a full bucket that is shaped like a small solo. Available in Original style or with chrome studs and hand tied conchos.

SISSY BAR PADS

FX/FL BIG TWIN '65-'84

Pads will fit all Harley-Davidson® and aftermarket bars with welded insert plates or with no center insert at all. A perfect match to a new Mustang seat, all pads have carpeted backs, chrome brackets and screws. All pads feature two chrome straps but only 9" tall pads (shown) have a threaded center hole for blind mounting plus the optional top bracket.

Note: These pads are covered in embossed vinyl matching most of our touring seats. These pads do not fit FL Touring uprights or 2018 later Softail uprights. For best fit with Mustang seats, standard height or higher uprights are recommended. Low and Mini uprights are not recommended.

SPRINGER CLASSIC '05-'07

1 5 DAYTRIPPER™

Mustang's advanced comfort technology lets you ride low, look cool and still be comfortable at the end of a day's ride. Places the driver slightly lower and further back compared to stock for more room in the saddle, with an 8" wide passenger area that offers comfortable 2-up riding.

Note: Solos and passenger seats will not fit with stock solos or passenger seats. Mustang's one piece seats and rear seats will not work with the Softail Deluxe luggage racks unless specifically noted. Our solo seats will work with the Deluxe stock rear seats. Will not fit '16 '17 FLSTC or FLSTN.

76040

1 5 TRIPPER FASTBACK™

The Tripper Fastback offers a super clean, custom style that's cut low for the driver to offer good back support. The seat sits the driver lower than stock without compromising comfort and features detailed stitch work, a streamlined driver area and tapered passenger area that still offers a reasonable degree of comfort.

Note: Solos and passenger seats will not fit with stock solos or passenger seats. Mustang's one piece seats and rear seats will not work with the Softail Deluxe luggage racks unless specifically noted. Our solo seats will work with the Deluxe stock rear seats. Will not fit '16 '17 FLSTC or FLSTN.

3 SIGNATURE SERIES FASTBACK™ BY DAVE PEREWITZ

Cruise in legendary style with this uniquely styled Fastback seat designed by renowned motorcycle customizer Dave Perewitz. Cut low to place the rider slightly lower and further back compared to stock. The tapered passenger section provides a streamlined look, but still offers a reasonable degree of passenger comfort.

Note: Solos and passenger seats will not fit with stock solos or passenger seats. Mustang's one piece seats and rear seats will not work with the Softail Deluxe luggage racks unless specifically noted. Our solo seats will work with the Deluxe stock rear seats. Will not fit '16 '17 FLSTC or FLSTN.

7 SPORT TOURING

Mustang's 15" wide sport touring solo is less rounded on the sides for a more sporty look, with a nose narrower than stock so riders can easily plant their feet on the ground. The built-in driver backrest is fully adjustable and easily removable, while the 11" wide passenger seat is slightly recessed in front to allow movement of the backrest.

Note: All passenger seats and one piece seats in this section require the stock rear mounting bracket be removed from the stock seat and bolted to the Mustang seat. If the stock bracket is missing, use Mustang bracket 78037 or H D® 52467 00.

1 3 SIGNATURE SERIES FASTBACK™ BY DAVE PEREWITZ

Cruise in legendary style with this uniquely styled Fastback seat designed by renowned motorcycle customizer Dave Perewitz. Cut low to place the rider slightly lower and further back compared to stock. The tapered passenger section provides a streamlined look, but still offers a reasonable degree of passenger comfort.

Note: All passenger seats and one piece seats in this section require the stock rear mounting bracket be removed from the stock seat and bolted to the Mustang seat. If the stock bracket is missing, use Mustang bracket 78037 or H D® 52467 00. Will not fit '97-'99 FLSTS.

7 SPORT TOURING

Mustang's 15" wide sport touring solo is less rounded on the sides for a sportier look and is available with or without a fully adjustable and easily removable driver backrest. Recessed passenger seats are designed for use with the built-in driver backrest. For seats without a built-in driver backrest, the passenger seat extends forward for increased driver back support. Be sure to add the matching sissy bar pad (79082) with built-in extension for maximum passenger comfort.

1 8 STANDARD TOURING

Featuring a unique trapezoid stitch pattern on high-quality expanded vinyl, the solo allows the rider to sit comfortably back into a 15.5" wide bucket that provides superior lumbar support. The matching passenger seat offers a generous 11.5" width that is properly contoured for comfort. All seats and the matching sissy bar pad (76289) have been specifically engineered to provide truly uncompromising comfort for both drivers and passengers. Available with or without a built-in receiver that accepts a fully adjustable and easily removable driver backrest for maximum comfort.

Note: Mustang's 11" passenger seat 76579 can be used with the 79683 solo, but the driver backrest cannot be used with the passenger seat installed.

1 3 SKYLINE SIGNATURE SERIES BY FRED KODLIN

Fred and Len Kodlin, Europe's most famous father-son custom bike builders, have combined their design vision with the hand-craftsmanship of Mustang to produce a sporty and elegant line of seats for H-D® Softail Breakout. Sits the rider slightly lower and further back compared to stock. Two-Toned solos feature panels of Alcantara® or genuine leather for a luxurious texture and ultra-durability. Solos can be matched with either a black or brown 7" wide passenger seat.

SISSY BAR PADS

FOR SOFTAIL '84-'17

Pads will fit all Harley-Davidson® and aftermarket bars with welded insert plates or with no center insert at all. A perfect match to a new Mustang seat, all pads have carpeted backs, chrome brackets and screws. All pads feature two chrome straps but only 9" tall pads (shown) have a threaded center hole for blind mounting plus the optional top bracket.

Note: These pads are covered in embossed vinyl matching most of our touring seats. These pads do not fit FL Touring uprights or 2018 later Softail uprights. For best fit with Mustang seats, standard height or higher uprights are recommended. Low and Mini uprights are not recommended.

REVERE FENDER BIBS

Revolutionary styling offered in a variety of designs and stitch colors to complement the custom look of our Revere Seats collection. Handmade and contoured to hug the fender utilizing stock seat mounts for installation. Intended for use with a solo seat, they are perfect for preventing or covering existing scratches with their soft, felt-lined backside that protects the paint.

FENDER & TANK BIBS

'18-'19 SOFTAIL FENDER BIBS

Styled to match the latest Mustang Standard Touring solo seats for '18-later Softail, Mustang Fender Bibs are handmade and contoured to hug the fender for a clean fit. The felt-lined backside protects the paint and is perfect for preventing damage to the fender from luggage or everyday use, as well as covering existing scratches or dings. Installation utilizes stock seat mounts.

EARLY SOFTAIL FENDER BIBS

Mustang Fender Bibs are handmade and contoured to hug the fender utilizing stock seat mounts for installation. Designed for use with a solo seat, they are perfect for preventing damage or covering existing scratches with their soft, felt-lined backside that protects the paint. All bibs are trimmed with vinyl braid, except 78165 which is trimmed with piping matching the Mustang touring solo.

MINI FENDER BIBS

The perfect bib for showing the rear fender but hiding the stock solo washers. Fits the following models that have a stud plate: Softail Heritage Springer, Deluxe, Springer and Heritage Classic.

	ORIGINAL
Black	78064
Brown	78142

TANK BIBS

Contoured to hug the tank and felt-backed to protect the paint, Tank Bibs feature braided edges for unique style and utilize stock mounts for easy installation. Available with or without a pouch in your choice of plain or studs and a concho. Decorative studs are chrome-plated brass, not steel, and will never rust. Conchos are custom made from heavy die-cast zinc rather than thin stamping, and are hand-tied with genuine leather straps. Pouch tank bibs offer a custom look with sensible convenience and feature a soft, fabric-lined interior. The flap is easy to open and closes tightly via hook and loop.

Moves you 1.5" Forward!

6 WIDE TRIPPER™ FORWARD

Take control of your ride! Mustang's Wide Tripper Forward Solo moves the driver 1.5" forward to reduce the reach to the handlebars and foot controls. The 13" wide driver seat supports riders at the correct seating angle with extra width in the hip area for long-distance comfort. Available in black or distressed brown, in original or diamond stitched styles, and with or without a built-in driver backrest that's fully adjustable and easily removable without tools.

Note: The Wide Tripper Forward Solo will move you 1.5" forward than the solos on page 157. Solo will not fit with stock passenger seat. Will not fit '14 '17 Fat Bob.

The unique Setback sissy bar pad gives the passenger more room with the same appearance and the same thickness as a standard sissy bar pad as well as the same back support and comfort. The Setback pad is recessed to lock right around the medallion-style sissy bar. No lower bracket is required. It secures with one center screw. Setback design gives 1" more room for the passenger with same back support and comfort as a standard pad.

Note: These pads are covered in covered in smooth vinyl and match Mustang seats. For best fit with Mustang seats, standard height or higher uprights are recommended. Low and Mini uprights are not recommended.

1 6 **FASTBACK™**

The Fastback's high-rising wall offers excellent back support and keeps the rider planted in an aggressive yet comfortable riding position to prevent sliding back in the saddle. The 11" driver bucket is cut low to place the rider slightly lower and further back compared to stock, while the 6" wide tapered passenger section provides a streamlined look but still offers a reasonable degree of passenger comfort.

Note: On models with a 2.1 gallon tank, there will be a gap at the nose of the seat.

1 3 **CAFÉ**

Inspired by racers of a bygone era, this café-style solo features a classic pleated design and raised tail section that keeps drivers planted in a comfortable position at a similar reach to the controls compared to stock, while offering excellent lower back support.

Note: Not recommended for use with 2.1 gallon tank due to the shape of the front of the seat. Will not fit with 4.5 gallon tanks.

1 3 SKYLINE SIGNATURE SERIES BY FRED KODLIN

Fred and Len Kodlin, Europe's most famous father-son custom bike builders, have combined their design vision with the hand-craftsmanship of Mustang to produce a sporty and elegant line of seats for H-D®. The two-toned solo features panels of Alcantara® or the stripe solo features genuine leather panels for a luxurious texture and ultra-durability. Places the rider slightly lower but at a similar reach to the controls compared to stock.

Note: Will not fit '07-'09 models unless the ECU is relocated from the fender. On models with 2.1 or 3.3 gallon tanks, there will be a gap.

SISSY BAR PADS

FOR SPORTSTER

Pads will fit all Harley-Davidson® and aftermarket bars with welded insert plates or with no center insert at all. A perfect match to a new Mustang seat, all pads have carpeted backs, chrome brackets and screws. All pads feature two chrome straps but only 9" tall pads (shown) have a threaded center hole for blind mounting plus the optional top bracket.

Note: These pads are covered in embossed vinyl matching most of our touring seats. For best fit with Mustang seats, standard height or higher uprights are recommended. Low and Mini uprights are not recommended.

MOTORCYCLES ♦ PARTS ♦ LEATHERS

When we set out to build a line of RSD seats we wanted classic designs blended with non traditional styling. Focusing first on the shape and profile, we designed each of our seats to complement both the rider and the lines of the motorcycle. Our pans are constructed out of the lightest and strongest material to ensure long life and comfort. Select textiles feature stitching that blurs the line between traditional and modern styling. Now available for your custom Harley, Indian, Triumph or BMW.

1 6 TRIPPER FASTBACK™

Let the Ducati Scrambler 1100 lead you to destinations unknown comfortably and in style! This redesigned Tripper Fastback keeps the retro look of the Scrambler but enhances its overall ride with 21st-century comfort. A contoured driver bucket keeps riders back and off the tank for a feeling of sitting “in” the motorcycle rather than “on” it. The improved positioning offers a more secure ride with greater handling and comfort compared to stock.

Features include clean detailed seam lines, a classic double-stitched tuck & roll driver area with contrasting “gripper” mesh inlay on the pillion to keep passengers from sliding forward or back, and convenient under-seat storage for a tool kit.

ONE-PIECE 2-UP

SCRAMBLER 800 '15-'19

1 8 TRIPPER FASTBACK™

Keep the retro look but advance to 21st-century riding comfort! Mustang's seat for the 2015-up Ducati Scrambler positions your body for the best posture while keeping you back from the tank and seated firmly "into" the motorcycle rather than on it. The classic tuck-and-roll stitching and detailed seam lines accentuate the classic 1970's look, while Mustang's baseplate design and proprietary foam provide modern, state-of-the-art comfort.

Note: On Scrambler models equipped with the optional alarm kit, the tool pouch will not mount to the Mustang seat.

1 8 JOURNEY

Keep your Scrambler's styling on point with a distinctive diamond-stitched cover and contoured fit that forms to the frame for a sleek, sexy look. Low cut with a raised tail section that offers lower back support and keeps the driver firmly planted in an aggressive riding posture "in" the motorcycle rather than on it.

Note: On Scrambler models equipped with the optional alarm kit, the tool pouch will not mount to the Mustang seat.

1 8 STANDARD TOURING WITH HEAT FOR MODELS WITHOUT OEM HEAT

The driver seat is 1" lower than stock and also sits the driver back 1". A built-in receiver accepts a fully adjustable and easily removable driver backrest (79904, sold separately). The nose of the seat is narrower than stock so the driver can easily plant his or her feet on the ground. The passenger seat is a bucketed shape to eliminate sliding forward. Comes complete with wire harness that connects directly to the motorcycle's fuse box.

Note: When using seat 79907 without the passenger backrest 79908, the rear heater will not work properly but the front seat heater will function normally.

1 9 WIDE TOURING

The deeply pocketed 16" wide driver seat sits you at the ideal cruising angle at a similar reach to the controls compared to stock, with extra width in the hip area for all-day comfort. The entire width of the 12.5" wide passenger seat utilizes Mustang's unique internal steel support wings. The driver's back is well supported by the nose of the passenger seat that extends forward to create a full 9" backrest.

TANK BIBS

Contoured to hug the tank and felt-backed to protect the paint, Tank Bibs feature braided edges for unique style and utilize stock mounts for easy installation. Available with or without a pouch in your choice of plain or studs and a concho. Decorative studs are chrome-plated brass, not steel, and will never rust. Conchos are custom made from heavy die-cast zinc rather than thin stamping, and are hand-tied with genuine leather straps. Pouch tank bibs offer a custom look with sensible convenience and feature a soft, fabric-lined interior. The flap is easy to open and closes tightly via hook and loop.

1 8 STANDARD TOURING

Mustang's one-piece touring seat offers significant improvements over the stock seat on Indian's luxury touring Roadmaster model. Stay warm but look cool with high/low dual heating controls for driver and passenger that are conveniently mounted onto Mustang's intricately enhanced, diamond-stitched seat cover. The driver's 15" wide seat is 3/4" lower and 7/8" further back than the stock seat so riders feel they are sitting back into the seat rather than merely on it. Includes a driver backrest for all day riding support—easily removable, fully adjustable, folds for storage and quickly installs into the receiver which is built into Mustang's seat.

1 8 STANDARD TOURING

The Standard Touring solo keeps the old-school bobber styling intact, while also delivering a significant upgrade in rider comfort and positioning. The 13" wide solo is 1" wider than stock with a contoured bucket that offers excellent lower back support, keeps the rider at a similar reach to the controls and eliminates sliding back in the saddle so you can ride hard and rack up the miles. Choose smooth and textured black vinyl, or opt for the classic contrasting distressed brown with textured black vinyl. Which ever you choose, both are guaranteed to enhance style with large diamond-stitched center panels and reinforced triple stitching on the sides.

TANK BIBS

Contoured to hug the tank and felt-backed to protect the paint, tank bibs feature braided edges for unique style and utilize stock mounts for easy installation. Available with or without a pouch in your choice of plain or studs and a concho. Decorative studs are chrome-plated brass, not steel, and will never rust. Conchos are custom made from heavy die-cast zinc rather than thin stamping, and are hand-tied with genuine leather straps. Pouch tank bibs offer a custom look with sensible convenience and feature a soft, fabric-lined interior. The flap is easy to open and closes tightly via hook and loop.

1 8 STANDARD TOURING

Available with or without a fully adjustable and easily removable driver backrest, Mustang's two-piece touring seats are available in original and studded styles. The deep front bucket measures a full 15" wide. For seats without the built-in driver backrest, the passenger seat extends forward to provide ample back support for the driver. The rear seat is 11.5" wide and features Mustang's unique internal steel support wings to keep the entire width of the molded foam supported. Both styles are finished with braided edge trim for a clean look.

1 5 DAYTRIPPER™

Complementing the Thunderbird's lines, Mustang has incorporated its advanced comfort technology into this custom seat. Places the driver slightly lower and further back compared to stock for more room in the saddle, with a 7" wide passenger area that offers comfortable 2-up riding. The detailed stitch work in the highly durable synthetic glove-leather cover makes the DayTripper almost as much of a stunner as the Thunderbird itself.

1 5 TRIPPER FASTBACK™

Combining two of Mustang's most popular seat styles, the Tripper Fastback gives the Thunderbird a sleek custom look without compromising comfort or back support. Although designed for a low, solo ride, these seats also offer a reasonable degree of passenger comfort in a pinch. The traditional tuck & roll treatment is a tribute to Triumph's classic styling cues.

ACCESSORIES

FOR TRIUMPH

FENDER BIBS

Mustang Fender Bibs are handmade and contoured to hug the fender utilizing stock seat mounts for installation. Designed for use with a solo seat, they are perfect for preventing damage or covering existing scratches with their soft, felt-lined backside that protects the paint.

MODEL	PLAIN	STUDED
Rocket III Touring '08-'18	78161	78162
Thunderbird & Thunderbird Storm '10-'18	78147	78148
America '02-'08 & Speedmaster '03-'08	78163	78164

TANK BIBS

Contoured to hug the tank and felt-backed to protect the paint, tank bibs feature braided edges for unique style and utilize stock mounts for easy installation. Available with or without a pouch in your choice of plain or studs and a concho. Decorative studs are chrome-plated brass, not steel, and will never rust. Conchos are custom made from heavy die-cast zinc rather than thin stamping, and are hand-tied with genuine leather straps. Pouch tank bibs offer a custom look with sensible convenience and feature a soft, fabric-lined interior. The flap is easy to open and closes tightly via hook and loop.

VISION '08-'17

1 8 STANDARD TOURING WITH DRIVER BACKREST & HEAT

Mustang's one-piece touring seat features a wide bucket radius for both the front and rear seating areas, as well as a slightly lower seating position for both. Not only does Mustang's more comfortable design let the driver sit back into the 17.5" wide seat but the front nose area has been designed to eliminate that "crowded" feeling. The lower nose area also helps ensure that one's boots more securely reach the ground. The built-in driver backrest is fully adjustable, easily removable and offers more features than any other backrest on the market. The passenger is fully supported in a 15.5" wide bucket that is contoured for comfort.

Note: Will not fit with the Vision Street Trunk Panel installed in place of the trunk. The switches on this seat are NOT illuminated.

1 5 DAYTRIPPER™

Mustang's advanced comfort technology lets you ride low, look cool and still be comfortable at the end of a day's ride. Places the driver slightly lower and further back compared to stock for more room in the saddle, with an 8.5" wide passenger area that offers comfortable 2-up riding. Features detailed stitch work in the highly durable synthetic glove-leather cover.

1 9 WIDE TOURING

Eliminates that "pushed-forward" feeling. The look of a two-piece seat and separate backrest pad are all built on a single baseplate. The deeply pocketed front bucket features a full 15" of lateral support. The 12.5" wide passenger seat extends forward to provide additional driver back support. The 9" wide rear backrest is integrated into the seat. The Virago accessory or Mustang's unique wedged sissy bar pad fits right above the Mustang seat backrest when using the tall sissy bar.

FENDER & TANK BIBS

FOR YAMAHA

FENDER BIBS

Mustang Fender Bibs are handmade and contoured to hug the fender utilizing stock seat mounts for installation. Designed for use with a solo seat, they are perfect for preventing damage or covering existing scratches with their soft, felt-lined backside that protects the paint.

MODEL	ORIGINAL	STUDED
Roadliner/Stratoliner	78119	78120
Raider	78132	78133

V-Star 650 Classic	78114	78115

TANK BIBS

Contoured to hug the tank and felt-backed to protect the paint, Tank Bibs feature braided edges for unique style and utilize stock mounts for easy installation. Available with or without a pouch in your choice of plain or studs and a concho. Decorative studs are chrome-plated brass, not steel, and will never rust. Conchos are custom made from heavy die-cast zinc rather than thin stamping, and are hand-tied with genuine leather straps. Pouch tank bibs offer a custom look with sensible convenience and feature a soft, fabric-lined interior. The flap is easy to open and closes tightly via hook and loop.

OFFSET DRIVER BACKREST TONGUE

Replaces the standard driver backrest post in all Mustang solo seats that have the built-in driver backrest unit. It has all the features of our standard driver backrest but allows the driver to lean back 2" further. Not recommended for seats on which the driver backrest is built into the passenger seat.

PROTECTALL™ CLEANS, POLISHES, WAXES & TREATS

ProtectAll is a do-it-all cleaner that leaves no oily film. The water repellent carnauba wax formula provides durable protection against all elements. Spray, wipe, and polish dry for a durable, lasting shine. To keep seats clean and the stitching water repellent, Mustang recommends the occasional use of ProtectAll or a similar spray carnauba wax. All Mustang seats are treated with ProtectAll before shipping.

TWO DAYS AFTER INSTALLING MY NEW WIDE TOURING SEAT I LEFT FOR A SIX DAY 2200 MILE TRIP. THE SEAT WAS AMAZING! I BOOKED 750 MILES THE FIRST DAY. MY BUTT WAS ALWAYS COMFORTABLE AND MY LOWER BACK NEVER HURT. I COULDN'T COME CLOSE TO SAYING THAT ABOUT THE STOCK SEAT. THANKS FOR A GREAT PRODUCT. I'LL BE RIDING MANY MILES ON THIS SEAT IN THE FUTURE... COMFORTABLY.

-JEFF M. TEXAS

H-D® MODEL REFERENCE CHART

To help select the correct product for a particular application, we've assembled this reference guide. It covers nearly every model produced in the last 30 years. (Due to limited space, some omissions have been made.) The reference guide below lists letter designations and model names for Harley-Davidson® motorcycles. It does not list the year(s) particular models were offered.

TOURING
