

MOUNTING SUGGESTIONS:

Honda VTX1300 & VTX1800 Retro/S/T - Fender Bib

Note: Mustang recommends removal of the fender bib before installing a passenger seat. Mounting a passenger seat over a fender bib may result in damage to the bib, poor seat alignment or other problems.

Installation of Mustang fender bib:

1. Remove the seat from the motorcycle.
2. Remove the passenger seat mounting bracket from the fender.
3. Attach the rear of the bib to the fender with the stock 6mm screw.
4. Clean the portion of fender under the front of the bib, and apply to the fender using the self-adhesive hook-and-loop fastener.
5. Re-install solo.

Enjoy the custom look of your new Mustang fender bib!

These steps are guidelines to help you install your new Mustang product.
