

MOUNTING SUGGESTIONS:

Yamaha Roadliner/Stratoliner Fender Bib

Note: Mustang recommends removal of the fender bib before installing a passenger seat. Mounting a passenger seat over a fender bib may result in damage to the bib, poor seat alignment or other problems.

Installation of Mustang fender bib:

1. Remove the seat from the motorcycle.
2. Remove the rear mounting bracket from the fender with a 10mm Allen wrench.
3. Attach the rear of the fender bib to the fender with the stock bolts. Do not overtighten.
4. Stretch the elastic at the front of the bib forward and around the solo mounting bracket.
5. Re-install the solo.

Enjoy the custom look of your new Mustang fender bib!

These steps are guidelines to help you install your new Mustang product.
