

Warranty

The warranty on a Nelson Rigg Motorcycle Covers is valid from the original date of purchase.

(Warranty period is indicated in the Description box under each cover model)

Nelson Rigg USA guarantees your product to be free from any manufacturing defects. We warrant to the purchaser that correction to any manufacturing defects in material or workmanship by either repairing or replacing the product free of charge within the valid warranty period. The warranty does not cover normal wear and tear or stains from dirt or pollutants. The cover must be properly utilized and maintained from the time of purchase.

- Vehicle to be dry before covering.
- Do not put cover on with hot pipes or parts.
- We recommend waiting 10 minutes for pipes/parts to cool down.
- Do not use cover while towing vehicle.

We are not liable for repainted surfaces or lacquer paint. Repainted surfaces should not be immediately covered. It is best to check with your paint body shop for the recommended "cure" time. Covering before the cure time has been reached may cause damage which is not due to the cover but due to the new paint.
