SX.60

This high quality helmet is made with the most advanced European technology. The helmets are produced for the protection of motorcyclists. The helmets are designed for motorcycle riding only. The specifications of this helmet are subject to change without notice.

Always use the helmet in the proper position, using the buckle to adjust to the head;

Light colors with matte finish require extra care as they are naturally more exposed to dust, fumes, compounds or other types of impurities.
THIS IS NOT COVERED UNDER WARRANTY!

Neon colors will fade when subjected to prolonged UV rays exposure.
THIS IS NOT COVERED UNDER WARRANTY!

Do not expose the helmet to any type of liquid solvent;

The helmet should be handled with care. Leaving it drops can damage the painting as well as reduce their characteristics of protection;

Keep the helmet in a safe place (not hang on the mirror of motorcycle or other support that can damage the lining). Do not carry your helmet on the bike or in the arm while driving;

SX.60

Please read this manual very carefully before wearing your helmet and keep it in a safe place. For correct use and for your safety, please pay attention to following instructions. The main function of helmet is to protect your head in case of impact. This helmet is made to absorb some of the energy of a blow by partial destruction of its component parts and, even though damage may not be apparent, any helmet which has suffered an impact in an accident or received a similarly severe blow or other abuse should be replaced.

HOW TO REMOVE THE VISOR?

To clear the Visor without affecting its characteristics should be used only soapy water (preferably distilled) and a soft cloth. If the helmet is deeply dirty (ex. insect remains) can add a little liquid from the dish to water. Remove the Visor from the helmet before carrying a deeper cleaning. Never use objects to clean the helmet that may damage/scratch the visor. Always store the helmet in a dry place and protected from light, preferably in the bag provided by NEXX HELMETS.

The lining of the helmet has the following features:

- Removable, Anti-allergenic, Anti-sweat.

The lining can be removed and is washable. In order to clean the lining, you may only use water and soap.

Let it dry naturally and don't twist the pieces. If for some reason this lining is damaged it can be easily replaced.

For adequate protection this helmet must be fit closely. Purchasers are advised to secure the helmet and to ensure that it cannot be pulled or rolled off the head.

The chinstrap must pass underneath the jaw and must be securely fastened to maintain tension all the time the helmet is in use. The law requires that the helmet must be securely fastened to the head. On no account must a chin cup be used with this helmet.
