

INSIDE ADVANTAGE!

+ INCREDIBLE TRACTION GAINS

Lets you run lower tire pressures for HUGE TRACTION GAINS, without the typical downsides.

+ ELIMINATES PINCH FLATS

No tubes means NO PINCH FLATS! No tube also allows you to FIX DAMAGED TIRES IN SECONDS, with tire plugs.

+ SUPERIOR RIM PROTECTION

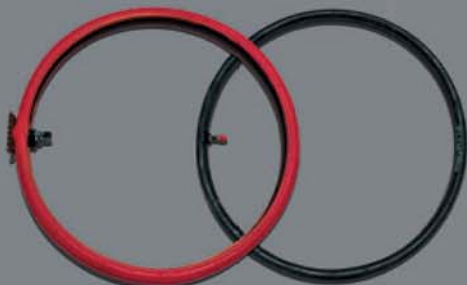

The 100 PSI liner also acts as a bumper, protecting the rim and also to stabilize and support the tires side walls.

+ POUNDS LIGHTER

Than pinch prone HD inner tubes.

WORKS WITH STOCK RIMS AND TIRES
(Seals to the inside of the tire, NOT the rim so it works with bent, tweaked and dinged rims too.)

EACH SYSTEM INCLUDES:

RED LINER
(SEAL/BUMPER)

BLACK BLADDER
(REMOVABLE INSIDE RED INNER LINER)

GUIDE PLATE

RIM TAPE

RIM PLUG

STICKER KIT

INSTALLATION
POSTER

DUAL AIR CHAMBERS

TUBLISS employs a DUAL PRESSURE CHAMBER system by replacing conventional tubes with a high pressure, rim protecting inner bladder acting as a 360 degree rim lock that seals the tire to the full circumference of the rim.

**RUN 0-10 PSI,
RETHINK THE
MEANING OF
TRACTION.**

Nuetech puts everything within reach.
