SCORPION™ RALLY STR

DETAILS

PROPERTY

Innovative knobs geometry

EFFECT

Combine on with off road needs
Off road traction and Stability

PROPERTY

Trail Road profiles and structures

EFFECT

Increased contact patch area at all lean angles

Excellent on-road behavior

A close-up, vertical view of a motorcycle tire tread. The tread pattern is shown in a dark grey color, with a yellow callout box overlaid on the upper portion. The callout box has a black top section with yellow text and a yellow bottom section with black text. A yellow 'X' icon is in the top right corner of the black section. The tread features several sipes and a central longitudinal groove. The text 'PIRELLI' is visible on the tread surface.

PROPERTY

High Silica Compounds

EFFECT

Wide range of operative
temperature
Grip in all conditions, tear resistance
and superior mileage
