

Handguard Gauntlet

Part # 34258

Installation Instructions

For use on PowerMadd Star Series, TrailStar and Sentinel handguards.

Step 1	Determine the correct side by making sure the PowerMadd logo faces up in the front. Open the Gauntlet and turn it inside out.	
Step 2	Slide the Gauntlet onto the handguard so that the two elastic straps go over the guard.	 A close-up photograph showing the black gauntlet being pushed onto the grey handguard. The two red elastic straps are visible, stretched over the top of the handguard.
Step 3	Continue sliding the Gauntlet onto the guard until the straps are about halfway across the guard.	 A close-up photograph showing the gauntlet further advanced onto the handguard. The red elastic straps are now positioned halfway across the top of the handguard.
Step 4	In this position you should be able to insert the inside edge of the handguard into the pocket in the Gauntlet.	 A close-up photograph showing the inner edge of the grey handguard being inserted into the black pocket of the gauntlet.
Step 5	Keeping the inside edge in the pocket, slide the Gauntlet back towards the outer edge of the guard and reposition the straps on the outer edge of the guard.	 A close-up photograph showing the final installation. The gauntlet is fully seated on the handguard, and the red elastic straps are now positioned over the outer edge of the handguard.

Handguard Gauntlet

Part # 34258

Installation Instructions

Step 6	Pull the Gauntlet around the guard, turning the Gauntlet correct side out.	 A black fabric gauntlet is being pulled over a red handlebar guard. The gauntlet has a red interior lining and a black exterior. The handlebar and controls are visible through the opening.
Step 7	Close the inside of the Gauntlet by using the Hook and loop fastener straps.	 A close-up shot of a person's hands adjusting a black hook and loop fastener strap on the interior of the gauntlet. The strap is being pulled across the fabric.
Step 8	Cinch the strap through the buckle to close the Gauntlet around your handlebars.	 The black gauntlet is now fully positioned over the handlebar guard. A black strap with a buckle is being cinched around the handlebar to secure the gauntlet in place.
Step 9	Repeat for other side.
