

RED LINE RL-600 BRAKE FLUID

- DOT 4 brake fluid formulated with a precise mixture of Borate Esters and Glycol Ethers, plus moisture and corrosion inhibitors
- Utilizing quality raw materials yields a superior fluid resistant to absorption and retention of moisture while providing the best protection against extreme temperatures
- Blend able with DOT 3, DOT 4 and DOT 5.1 fluids, RL-600 decreases ABS cycle times for more responsive and consistent pedal feel
- For passenger vehicles, as well as racing car and motorcycles, track day project cars and other motorsport activity

TYPICAL PROPERTIES:

Specifications	DOT 4, exceeds VMVSS 116 and SAE J1704
Dry Boiling Point	604°F/318°C
Wet Boiling Point	400°F/°204C
pH	7.7
Vis @ -40°C	1657 cSt
Vis @ 100°C	2.7 cSt

PACKAGE SIZES:

90402 - RL-600 Brake Fluid

ABOUT RED LINE BRAKE FLUID

- Red Line now offers its own high-performance brake fluid perfect for street or track use. RL-600 is engineered to maintain viscosity, lubricity and compressibility at extreme temperatures to help safeguard against brake fade and vapor lock in racing, performance and street applications.

Rely on premium oils, fluids, lubricants by Red Line if you're looking for quality and efficiency.
