

## Dual Compound Design

Dual compound design allows a flexible synthetic rubber edge with a hard plastic centre for maximum protection and durability.

## Reinforced Brackets

Reinforced Plastic brackets offer high levels of protection but allow the guard to flex in the event of a crash.

## Mounting Options

Brackets allow you to mount the guards independantly from the perches for the ultimate verastility.

## Graphics

Red and Blue additional graphics are included with the factory fitted Grey graphics. In addition Yellow, Green, Blue, Orange, Red and Grey are available seperately.
