

SEAL SKIN COVERS

— ULTRA TOUGH COVERS, MANUFACTURED DIRECT —

FAQ

What is a Semi Custom Cover? Is it made for my specific boat or vehicle?

Semi custom covers are covers designed based on a vehicle or boats style and size. Semi custom covers are not made specific to one vehicle or boat, but they are not 1 size fit all universal covers either. They fall in between and generally provide the best fit at the best possible price. Semi custom covers are an awesome option for customers looking for a quality cover, good fit and a great price. They help customers save hundreds of dollars on fully custom covers that are overpriced, un-returnable, hard to install and sometimes made from poor quality fabrics.

On our website you can discover more about boat covers.
