#### **Configuration Menu**

## Using the Sena Device Manager

Connect the headset to your computer via a USB cable. Launch the Sena Device Manager and click **DEVICE SETTING** to configure the headset settings.

For details about downloading the Sena Device Manager, please refer to the leaflet included in the package.

## Using the Sena Smartphone App

- 1. On your smartphone, download the Sena Smartphone App for Android or iPhone from Google Play or App Store.
- 2. Pair your smartphone with the headset.
- 3. Run the Sena Smartphone App. Swipe the screen to the right and tap Setting to configure the headset settings.

## Troubleshooting

## **Factory Reset**

If you want to restore the 10R to factory default settings, use the Factory Reset in the configuration menu. The headset automatically restores the default settings and turns off.

## **Fault Reset**

If the 10R is not working properly for any reason, reset by gently pushing the pin-hole reset button located below the (+) button.
