

10S

MOTORCYCLE BLUETOOTH® COMMUNICATION SYSTEM

The headset that has won the affections of motorcyclists across the globe gets a performance upgrade with Bluetooth 4.1, enhanced speakers, increased intercom distance of 1.6 km, FM radio and a smartphone app.

FAMILIAR FUNCTION, NEW AND IMPROVED PERFORMANCE

BLUETOOTH 4.1, ENHANCED AUDIO, LONGER RANGE

KEEPS YOU CONNECTED AND IN THE LOOP

Bluetooth 4.1 and Universal Intercom™

The Sena 10S Motorcycle Bluetooth® Communication System is an upgraded version of the original SMH10 system, which has proven itself roadworthy to motorcyclists everywhere. Now in a slimmer profile, the 10S maximizes the enjoyment factor of your ride by keeping you in touch with up to four riding companions via crystal-clear HD audio, up to 1.6 km (1 mile) away, through the One Touch Group Intercom™, the 10S is the best long range Bluetooth headset. The unit also uses the Universal Intercom™ protocol so it can communicate with all Sena motorcycle Bluetooth headsets and non-Sena Bluetooth headsets on the market.

HEAR THE SENA DIFFERENCE

Crystal-clear HD audio and Advanced Noise Control™

Don't be surprised when you're amazed. Sena's 10S noise-control headset delivers HD-quality audio that's clear, precise, and comfortable in every condition. Sena's Advanced Noise Control™ ensures ambient noise doesn't interfere with incoming and outgoing audio.

Meanwhile the Bluetooth 4.1 technology, improved stereo Bluetooth speakers, and advanced architecture creates a smooth, crisp, and responsive user experience you'll love.

VERSATILE CONNECTIVITY FOR ANY SETTING

With the 10S app, you're always in control and connected

The Sena Smartphone App makes configuring your 10S a snap! Change settings, set groups of intercom friends, and access a Quick Guide. You can also set up your 10S to pair with up to two mobile phones for convenient hands-free calling. The 10S is the versatile Bluetooth headset for motorcycle helmet that you've been waiting for.

BLUETOOTH AUDIO RECORDING

Pair with other Sena products to capture your fun

Pair the 10S with a **Sena Bluetooth Audio Pack**-equipped GoPro® or the **Sena Prism Bluetooth Action Camera**, and you'll have a wireless multi-track recording setup for HD video that includes the mic from your headset, the intercom audio from your buddies, and even the sound of the road!

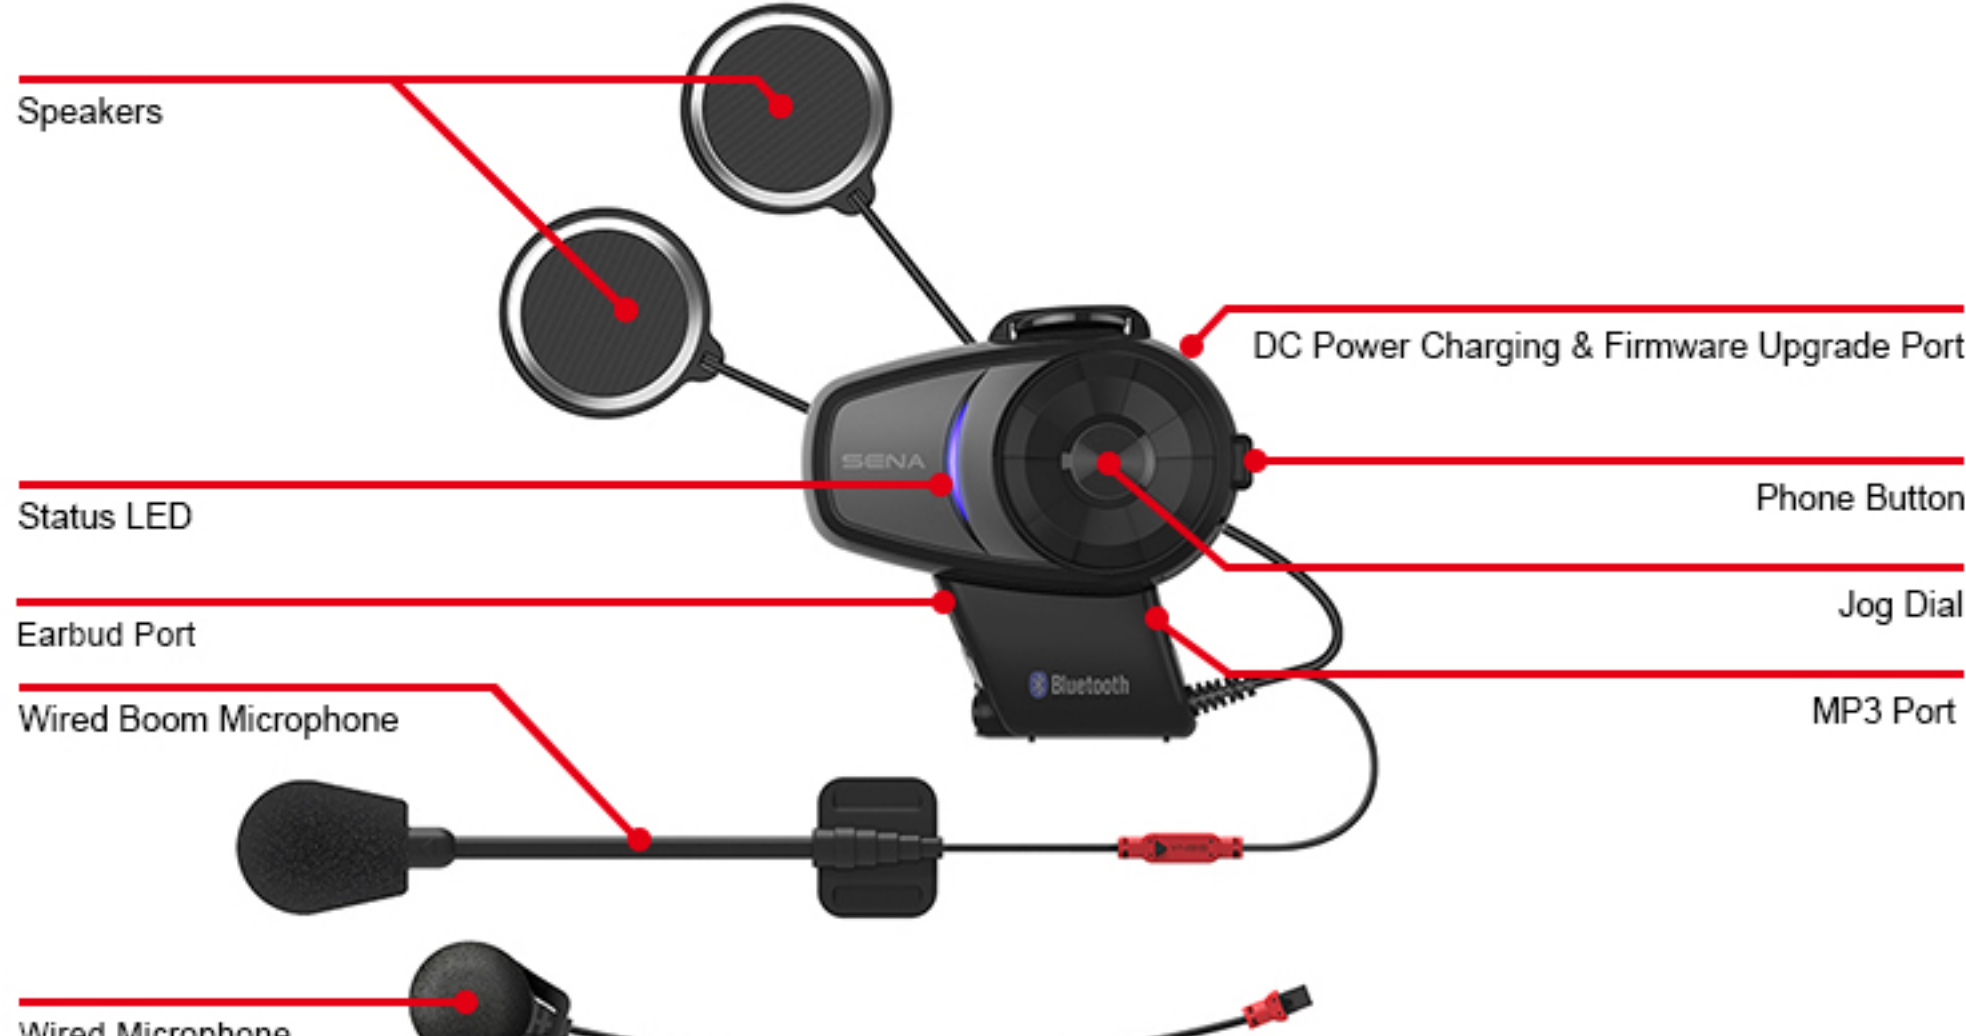

ALL-IN-ONE-CLAMP SYSTEM

Simplified, reliable audio connections

The 10S is a compact motorcycle helmet communication system, which simplifies the connections for your earbuds and microphone (wired or wired boom type) by condensing them down to a single clamp connector, which minimizes the number of wires and enhances reliability.
