

# SM10

## DUAL STREAM BLUETOOTH® STEREO TRANSMITTER

With Bluetooth® 2.1+EDR, the SM10 allows you to add dual-stream wireless Bluetooth® transmitting capabilities for up to two audio devices.

## TWO DEVICES, ONE CONTROL

### DUAL BLUETOOTH® STREAMING

#### FOR SIMPLE, SIMULTANEOUS USE OF TWO DEVICES

##### Like a wireless "splitter"

Both you and your passenger can listen to the same music or radio station at the same time, using any Bluetooth® headset on the market. With Bluetooth® 2.1+EDR, the SM10 allows you to add dual-stream wireless Bluetooth® transmitting capabilities for up to two audio devices, such as a mobile phone and MP3 player.

#### VERSATILE CONTROL

##### With Playback Control and Audio Distribution

The SM10 features Advanced Audio Distribution Profile for Bluetooth® Stereo Music and Audio Video Remote Control Profile for Playback Control.

The SM10 also allows you to hook up and monitor external devices such as a radar/laser detector or GPS navigation. An optional interface cable, meanwhile, enables the SM10 to work through a motorcycle's onboard audio system (if available). The unit mounts on your handlebars and is water resistant for when you don't want to stop for Mother Nature's downpour.

#### PRODUCT DETAILS

BLUETOOTH 2.1+EDR

BLUETOOTH STEREO MUSIC

DUAL AUDIO STREAM

FIRMWARE UPGRADEABLE

CAN BE USED WHILE CHARGING
