GB SH37 ASSEMBLY INSTRUCCIONS

Once the adaptor has been assembled you are then ready to fit the SH37 TOP CASE.

- 1- To open the SH37 TOP CASE, insert the key in the vertical position. Operate the locking mechanism as shown in Fig. 3. Turning the key in a clockwise direction will lock the SH37 so that it can neither be opened nor detached from the adaptor. The key can be removed in either the locked or unlocked position.
- 2- To remove the SH37 TOP CASE, insert the key in the vertical position, hold the case by the handle, operate the lower part of the opening mechanism and lift up gently until the anchorage comes out of the case. Then pull to remove the upper tongue from the adaptor groove (Fig.4).
