

The innovative PIN SYSTEM secures the tank bag to the motorcycle in a safe and easy way. 3 or 4 of the original gas cap screws are replaced with the discrete 'pins', making the installation very simple and done in only a few minutes.

PIN SYSTEM

This system has been engineered to integrate a light & thin mounting mechanism inside the tank bag instead of on the bike as not to affect the look of the bike.

PIN SYSTEM TANK BAGS

Light, elegant & functional

E-16P

E-10P

E-04P

The semi-rigid tank bags for PIN SYSTEM have been developed with particular attention to its aesthetics and functionality. The bags are full of features to further enhance your riding experience such as charging ports, touch screen phone holders & glove friendly zippers. [E04P](#) / [E10P](#) / [E16P](#)

ADJUSTABLE TO FIT YOUR MOTORCYCLE

To adapt to the motorcycle & rider. (E10P/E16P)

FITTING KIT AND BAGS

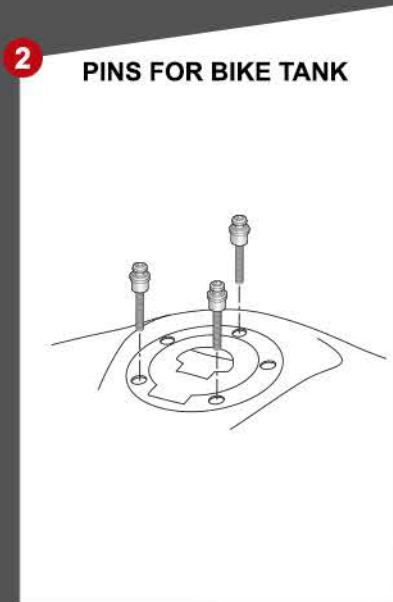

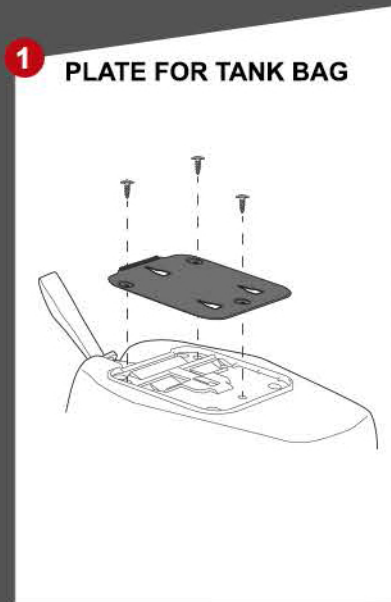

- 1.) Check your motorcycle compatibility.
- 2.) Choose your perfect bag.

INSTALLATION

Very easy and fast

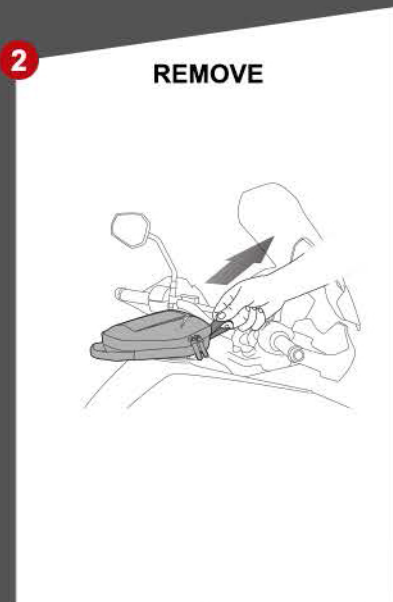

All that is needed is an allen & torx screwdriver or wrench & a few minutes

- 1.) Screw the fitting plate on the bag (Torx 20)
- 2.) Replace the 3 or 4 screws of your tank with the PIN SYSTEM pins. (Allen H3)

USAGE

Quick to place and remove

- 1.) Align the bag on the PINs and pull.
- 2.) Pull on the release lever to remove.
