SIDE BAG HOLDER

SPECIFIC FITTING FOR SADDLE BAGS

The semi-rigid side bags are an alternative to rigid side cases, ideal for those who do not usually make long journeys with the bike and seeks balance between functionality and aesthetics. But if you want to enjoy the full guarantee of a baggage conveyor system when you travel out of town, it is better to secure with a locking system.

In SHAD, we have developed new bindings that offer greater strength and security when using side bags, while preserving the aesthetics of the bike, not seriously interfering in its original design.

Here we include motorcycle models compatible with these bindings.
