There is no place you can't ride!

Such is the motto of the **Switch Riders**!

As renowned stunt riders wearing the SHARK brand, this troupe puts on more than 40 shows a year and has taken home enough contest prizes to rank them among the very best in the world in their category. Responsible for a large number of videos streaming on social media (see "Restricted Area - Drifting Motorcycles Crossing", which has already generated several million views), the Switch Riders prove to be great brand ambassadors!

SHARK would like to dedicate a special decoration for these champions in the brand's latest line: **SKWAL**. As part of its Pulse line, **the SHARK Skwal Switch**, available in 2 colors, was developed jointly between SHARK's design teams and Switch Riders' handlers. The result is a helmet that actually resembles Switch Riders: a burst of energy, friendship, riding, pushing one's limits, breaking new ground, etc. all matched by an incredible spirit!
