

CARBURETOR REPAIR KIT INSTALLATION INFORMATION

-Our carburetor repair kit is made to meet OEM specifications and should be installed following the OEM service manual.

-Jets included are common sizes. It may be required to get different sizes depending on riding conditions.

*Most carburetors' needle jet and main jet holder are separated. In this case, please do not forget to install the needle jet on the top of the main jet holder.

Accept no compromises, choose only quality motorcycle fuel parts.
