

## **RJ Platinum-R**

THE WORLD'S PREMIER OPEN-FACE HELMET

### DESIGN CONCEPT

Thanks to contemporary styling along with a fully removable, washable, adjustable interior, enhanced ventilation performance, and a remarkably quiet riding experience, the RJ Platinum-R establishes a higher standard for what an open-face helmet should be. Combined with SHOEI's heritage of fine craftsmanship and benchmark safety technology, you're left with the world's premier open-face helmet—the RJ Platinum-R.

### VENTILATION PERFORMANCE

Complete with two (2) closable upper air intakes and two (2) closable GT top exhaust outlets, the RJ Platinum-R ventilation system can be adjusted to meet the demands of your journey.

### VISOR SYSTEM

In addition to protecting against sun glare, The RJ's removable GT visor has been designed to help direct cooling air into the front air intakes, and the snap locations facilitate most aftermarket visors and shields.

## SAFETY

Few characteristics of a motorcycle helmet are as critical as its first and second layers of defense, which is precisely why the RJ Platinum-R features the SHOEI-exclusive Multi-Ply Matrix AIM+ shell and Dual-Layer EPS liner.

## COMFORT

The RJ Platinum-R features a fully removable, washable, and replaceable interior system that's been enhanced for a comfortable fit and maximum helmet stabilization during high-speed riding.

# RJ Platinum-R

THE WORLD'S PREMIER OPEN-FACE HELMET

## DESIGN CONCEPT

- Contemporary styling along with SHOEI's benchmark safety technology
- Fully removable, washable and replaceable interior system
- Enhanced ventilation performance and a remarkably quiet riding experience

## VENTILATION PERFORMANCE

- Two (2) closable upper air intakes and two (2) closable GT top exhaust outlets
- Four (2) front air intake vents and a rear air outlet
- Adjustable ventilation performance

## VISOR

- Removable GT visor protects from sun glare and directs cooling air into intake vents
- Snap locations facilitate most aftermarket visors and shields

## MULTI-PLY MATRIX AIM SHELL

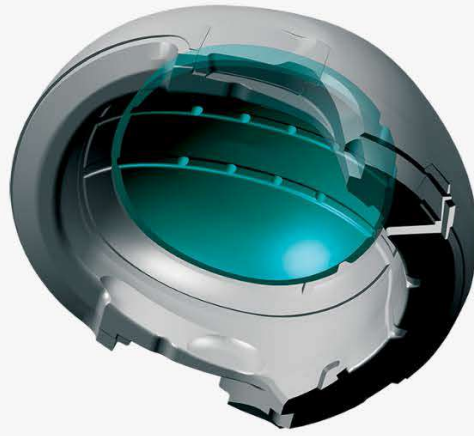

- Proprietary technology integrates a five-ply matrix
- Hand-laid interwoven layers of fiberglass with organic fibers and resin
- Shell-integrated spoiler with consistent shell thickness guarantees proper strength and weight

4 SHELL SIZES XS-XXXL | SNELL 2015 CERTIFIED | DOT APPROVED

## DUAL-LAYER EPS LINER

- Provides enhanced impact absorption by utilizing varying densities of foam
- Designed to allow cooling air to travel unrestricted through tunnels created in the EPS
- Generates negative air pressure to draw warm air through the helmet's exhaust vents

## 3D COMFORT LINER SYSTEM

- Fully removable, washable, and replaceable
- Three-dimensionally shaped to match the contours of a rider's head
- Cheek pad channel for eyeglasses
