

INSTALLATION TIP

2-438 LOWER FRONT COWL HOUSING

IT IS RECOMMENDED THAT THE INSTALLATION OF THIS LOWER FRONT COWL HOUSING BE DONE WITH TWO PEOPLE. AFTER REMOVING THE STOCK COWL, POSITION THE NEW COWL IN PLACE AND START THE CENTER SCREW IN ONLY A FEW TURNS. THE NEXT STEP IS WHERE HAVING TWO PEOPLE IS RECOMMENDED. EACH PERSON SHOULD TAKE A SIDE OF THE COWL AND POSITION AND HOLD THEIR SIDE IN PLACE. NOW THE OTHER SCREWS SHOULD EACH BE STARTED A FEW TURNS. WHEN ALL SCREWS HAVE BEEN STARTED THEY SHOULD THEN ALL BE TIGHTENED IN PLACE. BY FOLLOWING THIS PROCEDURE YOU WILL ELIMINATE THE POSSIBILITY OF BREAKING THE TABS ON THE PART.
