

ARIA GORE

SIZE	38 - 39 - 40 - 41 - 42 - 43 - 44 - 45 - 46 - 47 - 48 - 49
UPPER	Upper in micro injection and mesh
LINING	Lined with a Gore-Tex® waterproof-breathable membrane
SOLE	Non slip rubber sole
	

COLOUR

BLACK BLACK			
-------------	--	--	--

TECNOLOGY

Inserts in microfibre
PU heel cup
Inner and external ankle support
Hook and loop fastener and zip closure
Full length gaiter
Back re llective insert
Nylon inner sole and removable arch support pad

The GORE-TEX® membrane is at the heart of all products engineered with GORE-TEX® fabrics. It contains over 1.4 billion microscopic pores per square cm (9 billion pores per square inch). These pores are 20,000 times smaller than a water droplet, but 700 times larger than a water vapor molecule. Water from the outside will never penetrate. Yet perspiration can escape easily, so that less moisture is trapped in the insulation. The result: you stay warmer when it's cold and drier when you perspire.

The "CE" marking means that the product meets the basic health and safety requirements of European Directive 89/686/EEC.
