

Designed to limit  
foot/ankle  
hyperextension

Replaceable, sleek, micro adjustable cam lock buckle system with memory retention straps.

Top of the boots gaiter features a high grip anti heat panel on the inside area. The elastic belt with hook and loop fastener closure seals the top of the boot against the elements.

Sidi patented  
Replaceable shin  
plate.

The complete central strap system can be easily replaced and is available in two sizes.

A laminated Technomicro is used as the base material in all areas.

The boot's tongue features a protective internal gusset

A pair of black and red SIDI motorcycle boots is shown from a three-quarter perspective. The boots feature multiple straps with buckles, a prominent white SIDI logo on the side of the left boot, and a red flame-like graphic on the right boot. Numerous yellow circular callout dots are placed across the boots, highlighting various protective and structural features. A text box on the left side of the image provides a description of the heel's design.

Rigid, shock resistant,  
anatomically shaped heel  
hold the riders foot firm  
and thus resists twisting  
while offering maximum  
protection.

Fully replaceable by hand tools the anti-skid rubber SR sole disperses loads better than any other sole system on the market.

Lower buckle protected against opening because of an impact by a guard.

Nylon insole no dangerous steel shank!

Toe area covered in protective plastic.

Sidi's optional  
Supermoto or  
Enduro soles can  
be fitted.

Malleolus external plastic guard with ergonomic closed cell foam padding internally to enhance protection of those tender small foot bones.

Removable arch support.

Slim, cool non-bootie design.

Lined with anti-abrasion Cambrelle in the foot area for comfort, the upper is lined with Teflon mesh which prevents complete absorption of water and sweat.

Replaceable inner  
kickstart/footpeg  
guard on the inside  
area of both boots.

All bolt-on parts are replaceable.

Assembled and replaceable boot leg is stitch free!

Inner heat shield made of high grip material.

Exclusive Dual Flex System upper offers the industry's best fit, especially with knee braces!

Calf plate system features an inner double adjustment that expands to fit even the largest calf!
