

PERFORMER AIR

CE

The "CE" marking means that the product meets the basic health and safety requirements of European Directive 89/686/EEC.

SIZE	36-37-38-39-40-41-42-43-44-45-46-47-48-49-50
UPPER	PERFORATED TECHNOMICRO Microfibre
LINING	Lined with air Teflon mesh
SOLE	Top Rubber sole

COLOUR

BLACK | BLACK

TECNOLOGY

ZIP ELASTIC PANEL

· Sidi has added a small elastic panel to aid in a smooth zipper operation as it allows a bit of movement via the elastic as the zipper passes over the rider's ankle ball.

REPLACEABLE SLIDER

· The slider is replaceable and available in full nylon, with ceramic or with aluminium inserts.

When constructing most of Sidi boots, Sidi uses a new generation material called "Technomicro". Technomicro is a composite microfiber material created from strands that are so fine, each one is less than one thousand the thickness of silk. These fibers act like natural leather skin, but with the advantage of better strength, softer texture and lighter weight. Technomicro is also water resistant, highly resistant to abrasion and tearing and is easy to clean and maintain. Technomicro doesn't stain and offers reduced weight, more flexibility and a better feel than leather or other synthetic material boots

- Shaped and fixed shin plate with lower air channels
- Metatarsus external protection
- Internal and external shaped ankle pads
- Calf area exhaust in soft polyurethane protected with mesh
- Soft arch area
- Smooth heel cup for more adherence with the bike.
- Shift pad
- Nylon Inner sole with removable arch support pad
