

Perforated Teflon treated nylon lining. Lined with anti-abrasion Cambrelle® in the foot area for comfort, the upper is lined with Teflon mesh which prevents complete absorption of water and sweat. These materials will not retain water or sweat on the inside of the boot. The boot will dry quickly and the treatment also prevents the onset of mould.

Nylon shin deflector plate.

Fully encapsulated heel cup.

Malleolus external plastic guard with ergonomic closed cell foam padding internally to enhance protection of those tender small foot bones.

DuPont polymer toe shift pad

Dual compound sole.

Replaceable nylon
toe scuff pad.

Nylon inner sole with removable arch support pad. Double stitched in all high stress areas.

An elastic panel adjacent to the entry zipper allows a bind free zip and improved fit.

Internal inner and outer ankle protective caps.

Front calf plate features four small mesh panels for air flow.

Rear calf features six mesh panels for maximum transpiration of heat away from the rider's foot.

Zipper and hook and loop fastener closure system.

Equipped with the world famous Gore-Tex™ highly breathable and waterproof membrane to add a waterproof yet highly breathable barrier between the elements and the rider's feet.
The Gore-Tex™ membrane breathes more than any other membrane thus the rider's feet will stay cooler in warm weather with a Gore-Tex™ equipped boot.
