

## Plug & Play™ COMPATIBILITY

PLEASE REFER TO THE COMPATIBILITY LIST BELOW TO DISCOVER WHICH HARNESS ADAPTER IS REQUIRED FOR YOUR MOTORCYCLE.

**IF YOUR MOTORCYCLE IS NOT LISTED, PLEASE CHECK YOUR OWNERS MANUAL OR PHYSICALLY VERIFY YOUR BULB TYPE.**

There are many different types of headlight bulbs available. About 90% of motorcycles use standard H4 headlight(s) or Japanese H7 headlight(s). Pictured below first are the 2 most common headlights followed by other headlights that are very rarely found on motorcycles.

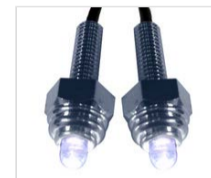

### New Products

LED Tag Screw/ AMBER

LED Tag Screw/ Blue

LED Tag Screw/ WHITE

Fast Hook Helmet Clip

Battery Tender Jr.

If your motorcycle has any of the rare types of headlights listed, you will need to use the universal harness adapter.

Find your motorcycle make, model, and year (if there is not a specified year then the harness should fit all year models) below to see which adapter harness you will need.

**NOTE:** Our Headlight Module IS NOT compatible with High Intensity Discharge (HID) type lighting. If your motorcycle uses HID type lighting for low beam(s) and/or high beam(s), our Headlight Module WILL NOT work.

**NOTE:** Our Headlight Module WILL NOT work the newest version of Light Emitting Diode (LED) headlights currently on the market (Truck Light/PHASE 7/Kuryakyn, etc.). R&D is underway, BUT no current ETA is available.

### COMPATIBILITY CHART

If your BMW is equipped with a CANBUS system our headlight module may interfere. Please check your owner's manual or with your local dealership prior to purchase to check to see if you can use our headlight module.

| MODEL   | YEAR         | HARNESS           |
|---------|--------------|-------------------|
| RT850R  | ALL          | DUAL H4           |
