

## M1 for Off-Road & Motard

Not just another grip, these are acoustically engineered to rebound and absorb more vibration than any other grip on the market. The dual layered M1 grips feature a full flange and a super strong end cap ideal for Off-Road, Dual-Sport and Motard riding.

Available in 9 Colors

Pink, Green, Black, Blue, Titanium, Yellow, Graphite, Orange and Red .

### Vibration Dampening Core

Spider M1 grips are designed with a Vibration Dampening Core. This Acoustical Rebound Layer is engineered with a specially shaped core with an innovative boundary layer. This gives you a grip with less vibration at the hand which reduces hand fatigue and arm pump, and also lets you listen to feedback from the machine and tailor your response accordingly.

### Traction Gel

Spider M1 grips feature Traction Gel – a specially formulated compound that sheds mud and water so that it stays tacky even when wet making it easier to hold on. This gives better control and less rider fatigue. Just like a competition tire, Traction Gel breaks in and continues to offer top performance throughout the life of the grip.

### Dual Layered – Full Flange – Super Strong End Cap

The dual layered M1 grips feature a full flange and a super strong end cap ideal for Off-Road, Dual-Sport and Super Moto riding.

### Acoustically Engineered

Not just another grip, these are acoustically engineered to rebound and absorb more vibration than any other grip on the market.

### Colors

They are available in 9 colors. Red, Orange, Black, Yellow, Titanium, Blue, Graphite, Green and Pink.

### M1 Applications

M1 Applications: Off-Road, Dual Sport, SuperMoto

**Remember; always check your controls to be sure they are free and correct before every ride, and to seek a professional's advice on any modification to your machine.**

Spider Grips are in compliance with CPSC Standards, and the Consumer Product Safety Act of 2008
