

Slim Line SLX for Off-Road

Super Slim vibration damping grips with dual layer technology that is unbeatable for Off-Road and Motard riding. Made from special compounds which are tacky so you can hang on with less effort and fatigue. Designed to be tough enough for the dirt with a full flange and an armored end cap.

Available in 9 Colors

Titanium, Graphite, Red, Blue, Yellow, Orange, Black, Pink and Green.

Vibration Dampening Core

Spider SLX grips are designed with a Vibration Dampening Core. This Acoustical Rebound Layer is engineered with your riding in mind. Spider's grip design has a specially shaped core with an innovative boundary layer. This gives you a grip with less vibration at the hand which reduces hand fatigue and arm pump, and also lets you listen to feedback from the machine and tailor your response accordingly.

Dual Layer Technology

Super Slim vibration damping grips with dual layer technology that is unbeatable for Off-Road, Dual Sport and Super Moto riding. Made from special compounds which are tacky so you can hang on with less effort and fatigue.

Traction Gel

Spider SLX grips feature Traction Gel – a specially formulated compound that sheds mud and water so that it stays tacky even when wet making it easier to hold on. This gives better control and less rider fatigue. Just like a competition tire, Traction Gel breaks in and continues to offer top performance throughout the life of the grip.

Full Flange and Armored End Cap

Designed to be tough enough for the dirt with a full flange and an armored end cap.

Colors

Available in 9 colors. Red, Orange, Black, Yellow, Titanium, Blue, Graphite, Green and Pink.

SLX Applications

SLX Applications: Off-Road, Dual Sport, SuperMoto

Remember; always check your controls to be sure they are free and correct before every ride, and to seek a professional's advice on any modification to your machine.

Spider Grips are in compliance with CPSC Standards, and the Consumer Product Safety Act of 2008
