

MoHawk Ski™

The Ultimate Riding Experience

DISTINCTION

The MoHawk Ski™ is perfect for trail, crossover and mountain riders who want flotation, aggressive bite and predictability on the new “Rider Forward” chassis of today. For customers that want to rail through the corners, while not sacrificing off-trail performance, this is the ski.

7 3/8” Overall Width for Maximum Flotation.

6” Main Bottom Width for Superb Trail Manners.

New Lightweight Flexible Loop is Nearly Indestructible. Utilizes Flush Alloy Fasteners.

MoHawk Shaped Traction Edges

“On a scale of 1-10 the Mohawks land at 11! So smooth and silky on trail, no darting, no fighting, just precision. Flotation galore in powder and aggressive when you need them to be! The ultimate ski for the back-country sled! -- Phatty Dier”

“The new MoHawk Skis™ from Starting Line Products are the single best add-on for any crossover sled, giving you the best of both worlds on and off trail!”
-- Kevin Beilke
SnowTech Magazine
