WARRANTY

LIMITED WARRANTY: STOMPGRIP, Inc. warrants that its products shall be free from defects in material and/or manufacture at time of purchase from STOMPGRIP, Inc. or an authorized reseller for eighteen (18) months from the date of manufacture. STOMPGRIP, Inc.'s sole obligation and Buyer's sole remedy under this warranty will be, at the option of STOMPGRIP, Inc., to either repair, replace or refund the purchase price for any defective products.

NOT COVERED BY WARRANTY

- Stompgrip does not recommend attempting to remove and reinstall its products; they are not designed for this purpose. Stompgrip's products are designed to have a firm grip and stay on each vehicle or board until they are removed at the rider's discretion. A product designed to give riders improved traction and control should not be able to be removed and reused so easily.
- Installing a product upside down or backwards, not following installation instructions, or making an installation mistake.
- Worn down or used products. The shelf life and the product life are two different lifecycles that need to be differentiated when using Stompgrip products. The product life of Stompgrip's tank grips and stomp pads ultimately depends on how a person rides. If the products are installed prior to the end of the warranty period (i.e. the shelf life), the products should install and function properly. How long each product lasts, or the product lifecycle, depends on how aggressive each rider is in their riding style and how quickly the products wear down from the degree of usage. So, no, a worn-down product or a product used for years is not covered under Stompgrip's warranty.
