

Supersprox

LIVES
LONGER!

Supersprox - Alloy.

Do you race Motocross and want for the lightest possible sprocket.

Made from 7075-T6 aluminum for high strength.

Fully CNC machined for a perfect fit.

Grooved teeth, prevent dirt build up, helping to maximise sprocket and chain life.

Finished with durable anodising and great in colors.

The lightest and strongest aluminum sprocket on the market.

MXGP WORLD CHAMPION
ROMAIN FEBVRE
