

# Supersprox

LIVES  
LONGER!

Supersprox - Racing Steel sprocket.

Developed on the race track, to give longer system life and high performance for all street bikes.

Using CAD Designed and CNC-Laser cutting, to ensure an exact fit on the wheel.

Made to Supersprox high quality standards and include our exclusive (2XZINK) anti corrosion BLACK finish.

They will last 3 longer than any aluminium sprocket.

One of the lightest steel sprockets on the market.

With the factory styling, you are not compromising on design.
