## *Solid Axle Kits*

With Vintage's™ solid axle front end kits, you get the same geometrically-correct setup but with brand new tooling and a cleaner forging process for a much higher show-quality appearance.

## *Hot Rod Gobi Heaters*

21

Vintage's Gobi heater kit can warm up the coldest vehicle with ease. Heating is provided from the hot engine coolant just like an OEM setup, but in a much more compact size making it easy to fit under your dash or seat.

21

## *License Plate Toppers*

Vintage Parts license plate toppers are ideal for hot rods, street rods, rat rods and customs. Made from a cast alloy metal and then hand painted to bring out the details, these toppers can be mounted on the top or bottom of your frame. Toppers include slotted mounting hole for height adjustment.

## Solid Axle Front End Kits

# The Honor of Tradition

WITH THE TECHNOLOGY OF TODAY

Maintaining the original doesn't always mean maintaining the flaws of yesteryear's manufacturing processes. Why settle for old, worn out forgings and high metal porosity? With Vintage's™ solid axle front end kits, you get the same geometrically-correct setup but with brand new tooling and a cleaner forging process for a much higher show-quality appearance.

KITS AVAILABLE FOR:

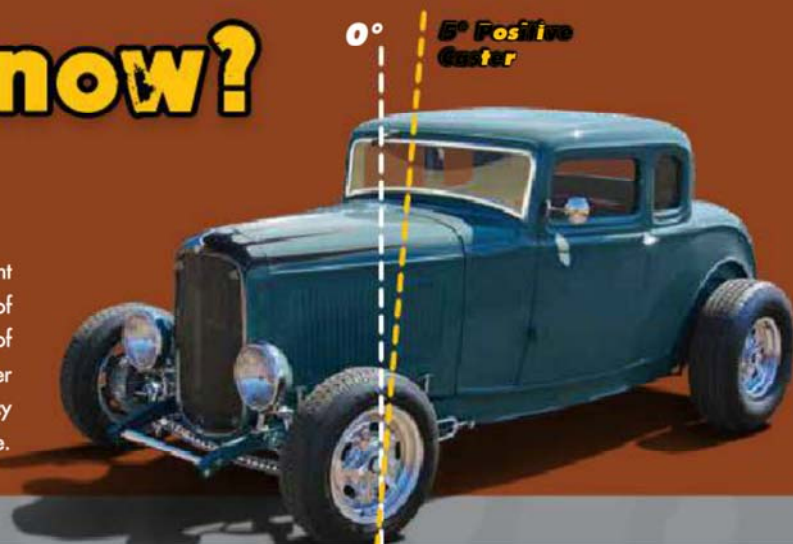

• '28-'31 Ford Model A • '32 Ford • '33-'34 Ford • '35-'48 Ford  
& MORE!

**did you know?**

Ford-based hot rods use  
**Positive Caster.**  
*What is it?*

Caster is the vertical tilt of the kingpin, which is the main pivot point for your spindles. When this angle is tilted back towards the rear of the vehicle, it's called **Positive Caster**, this improves the ability of your vehicle to track straight down the road and return to straight after a turn. Also, positive caster prevents the tires from having a tendency to wander or weave, and increases high-speed control of the vehicle.

**See page 3  
to pick a kit  
for you ride!**

## Hairpin Kit

Complete kits feature everything you need for an easy installation. Axle, all shock hardware, panhard bar, hairpins, bushings, brake calipers, hubs, bearings, clevis pins, frame mounts, and dust caps. Traditional appearance done right!

## 4-Link Kit

For a traditional look but improved handling & geometry, the 4-link kit has it all. With the 4-link kit, your front suspension components obey the rules of the parallelogram, preventing any change in caster through movement of the suspension.

KITS COMPLETE WITH ALL YOU NEED

### What this means for your **Suspension & Control**

#### Hairpin & Split Wishbone

##### Change in Caster

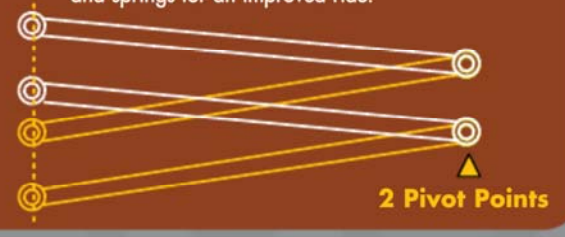

In this type of suspension control, the axle pivots from a center line. When one wheel encounters a bump, the caster angles on each side of the vehicle are different. The axle must twist to compensate and bump steer might be a problem.

#### 4-Link Suspension

##### No Change in Caster

Behaving like a parallelogram, constant caster is maintained and the axle does not have to twist. The freely moving axle is dampened by only the shocks and springs for an improved ride.

**ADR  
Rated!**

# Solid Axle Kit Selection

## pick your solid axle kit:

### 1 - Choose Drilled or Solid

- K** - Drilled

Prefix: **VPAAX** +  +  +  +  = **your axle**

## Front Four-Link Kits

Vintage™ 4-Link Kits reduce bumpsteer through active parallelogram action. Kits come with batwings, 4-link bars, bushings, adjusters, bolts and frame mounts.

### 1. Application

- |                        |                        |
|------------------------|------------------------|
| <b>FA</b> - 28-31 Ford | <b>FC</b> - 33-34 Ford |
| <b>FB</b> - 32 Ford    | <b>UA</b> - Universal  |

### 2. Finish

- |                            |
|----------------------------|
| <b>A</b> - Raw Steel       |
| <b>B</b> - Stainless Steel |
| <b>C</b> - Chrome          |

Prefix: **VPA4L** +  +  = **your 4-link kit**

## Hairpin Kits

Vintage™ Hairpin Kits give you the traditional solid-axle look and ride in a complete kit that comes with hairpins, adjustable clevis pins, hairpin end adjusters, all hardware & bushings and axle mounts.

### 1. Application

- |                        |                        |
|------------------------|------------------------|
| <b>FA</b> - 28-31 Ford | <b>FC</b> - 33-34 Ford |
| <b>FB</b> - 32 Ford    | <b>UA</b> - Universal  |

### 2. Finish

- |                            |
|----------------------------|
| <b>A</b> - Raw Steel       |
| <b>B</b> - Stainless Steel |
| <b>C</b> - Chrome          |

Prefix: **VPAHPL** +  +  = **your hairpin kit**

## Brake Kits

Brake kits come complete with all you need- available with either standard and drilled/slotted rotors.

VPABK23 #76184

## Panhard Rod Bars

For the sturdiest, wander-free front suspension and steering setup, you've gotta have a trustworthy panhard bar absorbing the forces of your steering linkage.

### Panhard Pull Bars

- |     |                 |       |                 |

## measure your axle for a spring

Here's How:

Measure the distance from spring perch boss to spring perch boss, from centerline to centerline. Take this measurement and subtract 5 inches- this is the width of your spring.
