

Imprint Methods:

Auto Engrave & Color Image

Image is die struck onto various metal substrates such as brass, aluminum, and pewter to create the flame design surrounding the color imaged. Harley-Davidson® bar and shield logo.

Fusion

A combination of specific pre-determined color palettes are combined with pre-determined chrome breaks to create an iridescent, metallic look.

Color Image

State-of-the-art printing method allows Zippo to imprint multiple colors or full-color photographic representations.

Laser Engrave & Color Image

Laser engraving is computer programmed to generate an accurate replication of an imprint. The Harley-Davidson® name is created using laser engraving to wrap around the color imaged skull.

Lustre

Zippo artists meticulously render each line in the designs pattern, using a new laser engraving method to fill the design.

Laser Two Tone

Zippo's laser can be programmed utilizing two different depths creating a unique contrast within the image.

Features:

Case

Standard case shape featuring rounded corners and top with a flat bottom. A five-barrel hinge joins the top and the bottom.

Insert

Standard insert with 16 holes in the chimney (8 per side).

Bottom Stamp

Bottom stamp with Zippo logo from the period authenticates these lighters as genuine Zippo.

Packaging

Unless otherwise stated, every Zippo windproof lighter is packaged in the 'one box'. The patented 'one box' is attractive, easy to handle, and designed to display more of the lighter than ever.
